**INFORMATION REGARDING FORWARD-LOOKING DISCLOSURE**

This quarterly report on Form 10-Q contains forward-looking statements. Statements in this report that are not historical facts, including statements about management's beliefs and expectations, constitute forward-looking statements. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "intend," "could," "would," "estimate," "continue" or comparable terminology are intended to identify forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined under Item 1A, Risk Factors, in our most recent annual report on Form 10-K. Forward-looking statements speak only as of the date they are made and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to, the following:

- potential effects of a challenging economy, for example, on the demand for our advertising and marketing services, on our clients' financial condition and on our business or financial condition;
- our ability to attract new clients and retain existing clients;
- our ability to retain and attract key employees;
- risks associated with assumptions we make in connection with our critical accounting estimates, including changes in assumptions associated with any effects of a weakened economy;
- potential adverse effects if we are required to recognize impairment charges or other adverse accounting-related developments;
- risks associated with the effects of global, national and regional economic and political conditions, including counterparty risks and fluctuations in economic growth rates, interest rates and currency exchange rates; and
- developments from changes in the regulatory and legal environment for advertising and marketing and communications services companies around the world.

Investors should carefully consider these factors and the additional risk factors outlined in more detail under Item 1A, Risk Factors, in our most recent annual report on Form 10-K.

**Notes to Consolidated Financial Statements**  
**(Amounts in Millions, Except Per Share Amounts)**  
**(Unaudited)**

**Note 1: Basis of Presentation**

The unaudited Consolidated Financial Statements have been prepared by The Interpublic Group of Companies, Inc. and subsidiaries (the “Company,” “IPG,” “we,” “us” or “our”) in accordance with accounting principles generally accepted in the United States of America and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for reporting interim financial information on Form 10-Q. Accordingly, they do not include certain information and disclosures required for complete financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make judgments, assumptions and estimates that affect the amounts reported and disclosed. Actual results could differ from these estimates and assumptions. The consolidated results for interim periods are not necessarily indicative of results for the full year and should be read in conjunction with our 2010 Annual Report on Form 10-K.

In the opinion of management, these unaudited Consolidated Financial Statements include all adjustments of a normal and recurring nature necessary for a fair statement of the information for each period contained therein. Certain reclassifications have been made to prior period financial statements to conform to the current period presentation.

During the first quarter of 2011, we changed the classification of taxes assessed by governmental authorities that are directly imposed on our revenue-producing transactions from a gross to a net basis in a country. This change, which was applied retrospectively and does not change previously reported operating income or net income, decreased revenue and office and general expense by \$6.1 for the three months ended June 30, 2010, and by \$10.4 for the six months ended June 30, 2010. A comparable amount is included as a reduction to revenue and office and general expense for the three and six months ended June 30, 2011. We believe this presentation better aligns the Company’s internal financial and operational management reporting as well as increases consistency in our external reporting across the countries in which we operate.

**Note 2: Debt and Credit Arrangements**
**Long-Term Debt**

A summary of the carrying amounts and fair values of our long-term debt is listed below.

	Effective Interest Rate	June 30, 2011		December 31, 2010

<b>Long-term debt, excluding current portion</b>		<b>\$ 1,167.8</b>		<b>\$ 1,583.3</b>	

<sup>1</sup> Excludes the effect of related interest rate swaps.

<sup>2</sup> Fair values are derived from trading quotes by institutions making a market in the securities and estimations of value by those institutions using proprietary models.

<sup>3</sup> On March 15, 2012, holders of our 4.25% Convertible Senior Notes due 2023 (the “4.25% Notes”) may require us to repurchase their notes for cash at par and as such, we included these notes in the current portion of long-term debt on our June 30, 2011 unaudited Consolidated Balance Sheet. Any 4.25% Notes not repurchased on March 15, 2012 will be reclassified to long-term debt.

**Notes to Consolidated Financial Statements – (continued)**  
**(Amounts in Millions, Except Per Share Amounts)**  
**(Unaudited)**

**Interest Rate Swaps**

In March 2011, we entered into an interest rate swap agreement related to our 6.25% Senior Unsecured Notes due 2014 (the "2014 Notes") to effectively convert \$100.0 notional amount of our \$350.0 2014 Notes from fixed rate to floating rate debt. In April 2011, we entered into an additional interest rate swap agreement related to the 2014 Notes to effectively convert an additional \$100.0 notional amount of our 2014 Notes from fixed to floating rate debt. In May 2011, we terminated all of the interest rate swaps related to the 2014 Notes, which were settled for a total of \$2.7, received in cash, which included accrued and unpaid interest. Upon termination of these swaps, a debt premium equal to the swaps' fair value of \$2.3 was recorded as an adjustment to the carrying value of the debt and will be amortized as a reduction to interest expense over the remaining term of the 2014 Notes, resulting in an annual effective interest rate of 5.8%.

**Credit Facilities**

On May 31, 2011, we entered into an amendment and restatement of our credit agreement originally dated as of July 18, 2008 (the "Credit Agreement"), increasing the commitments of the lenders to \$1,000.0 from \$650.0, and extending the Credit Agreement's expiration to May 31, 2016. Additionally, the amendments modified our financial covenants, and provided additional flexibility with respect to, or eliminated, certain covenants such as restrictions on acquisitions, capital expenditures and restricted payments. In addition, the cost structure was reduced.

We were in compliance with all of our covenants in the Credit Agreement as of June 30, 2011. The financial covenants in the Credit Agreement require that we maintain, as of the end of each fiscal quarter, certain financial measures for the four quarters then ended. As of June 30, 2011, we had received investment-grade ratings from two of the major credit ratings agencies, and consequently we are not required to satisfy a minimum EBITDA financial covenant and no longer have limitations on restricted payments. The table below sets forth the financial covenants in effect as of June 30, 2011.

	Q2 2011	Q3 2011	Q4 2011 & Thereafter
Interest coverage ratio (not less than): <sup>1</sup>	4.50x	5.00x	5.00x
Leverage ratio (not greater than): <sup>2</sup>	3.25x	3.00x	2.75x

<sup>1</sup> The interest coverage ratio is defined as EBITDA, as defined in the Credit Agreement, to net interest expense plus cash dividends on convertible preferred stock for the four quarters then ended.

<sup>2</sup> The leverage ratio is defined as debt as of the last day of such fiscal quarter to EBITDA, as defined in the Credit Agreement, for the four quarters then ended.

**Convertible Senior Notes**

The conversion rates of our 4.25% Notes and 4.75% Convertible Senior Notes due 2023 (the "4.75% Notes," and, together with the 4.25% Notes, the "Convertible Notes") are subject to adjustment in specified circumstances, including any payment of cash dividends on our common stock. As of June 30, 2011, the conversion rate for our Convertible Notes has been adjusted from 80.5153 to 81.3289 as a result of the cumulative effect of the cash dividends declared and paid on our common stock during the first half of 2011, resulting in a corresponding adjustment of the conversion price from \$12.42 to \$12.30. The conversion rate of our 5 1/4% Series B Cumulative Convertible Perpetual Preferred Stock is also subject to adjustment for the payment of cash dividends on our common stock, but has not been adjusted as the applicable threshold for adjustment has not been reached.

**Capped Call**

In November 2010 we purchased capped call options to hedge the risk of price appreciation on the shares of our common stock into which our 4.75% Notes are convertible. During the second quarter of 2011, the strike price and cap price related to the capped call options were adjusted due to the payment of cash dividends on our common stock. As of June 30, 2011, the options give us the right to purchase up to 16.3 shares of our common stock at a strike price of \$12.30 per share (previously \$12.42), except that the economic value of the net proceeds of exercising the options will not exceed the difference between the strike price and the adjusted cap price of \$18.08 per share (previously \$18.26).

Earnings per share available to IPG common stockholders - diluted	\$ 0.19	\$ 0.15	\$ 0.11	\$ 0.02

<sup>1</sup> For the three and six months ended June 30, 2010, the benefit from the preferred stock repurchased is excluded from net income available to IPG common stockholders for purposes of calculating diluted earnings per share since the associated common shares, if converted, were dilutive. In addition, for the six months ended June 30, 2010, the benefit is also net of \$4.0 of preferred dividends that were declared during the first quarter of 2010 and associated with the preferred stock repurchased.

The following table presents the potential shares excluded from the diluted earnings per share calculation because the effect of including these potential shares would be antidilutive.

	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
4.75% Notes	0.0	0.0	16.3	16.1

<b>Total</b>	<u>0.0</u>	<u>16.2</u>	<u>32.5</u>	<u>32.3</u>

Securities excluded from the diluted earnings per share calculation because the exercise price was greater than the average market price:

Stock options <sup>1</sup>	7.7	19.9	7.7	19.9
----------------------------	-----	------	-----	------

<sup>1</sup> These options are outstanding at the end of the respective periods. In any period in which the exercise price is less than the average market price, these options have the potential to be dilutive, and application of the treasury stock method would reduce this amount.

Professional fees	17.9	24.6
Other	113.5	118.9
Total accrued liabilities	<u>\$ 2,849.4</u>	<u>\$ 3,112.7</u>

*Acquisition obligations* – During the second quarter of 2011 we paid acquisition obligations, including payments of \$32.9 relating to transactions with consolidated subsidiaries where we have increased our ownership interests, which are classified within acquisition related payments in the financing section of the unaudited Consolidated Statements of Cash Flows. Additionally, we paid deferred payments of \$31.8 relating to a prior-year acquisition, which was classified within acquisitions, including deferred payments, net of cash acquired in the investing section of the unaudited Consolidated Statements of Cash Flows.

**2004 Restatement Liabilities**

As part of the restatement we presented in our 2004 Annual Report on Form 10-K (the “2004 Restatement”), we recognized liabilities related to vendor discounts and credits where we had a contractual or legal obligation to rebate such amounts to our clients or vendors. Reductions to these liabilities are achieved through settlements with clients and vendors, but also may occur if the applicable statute of limitations in a jurisdiction has lapsed. As of June 30, 2011, and December 31, 2010, we had vendor discounts and credit liabilities of \$77.7 and \$82.5, respectively, related to the 2004 Restatement.

**Other Income (Expense), net**

Results of operations for the three and six months ended June 30, 2011 and 2010 include certain items which are not directly associated with our revenue-producing operations.

	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Gains (losses) on sales of businesses and investments	\$ 0.3	\$ (3.3)	\$ (6.2)	\$ (3.1)
Vendor discounts and credit adjustments	2.8	2.2	2.9	2.0
Other income (expense), net	2.2	(1.0)	2.5	(0.5)
Total other income (expense), net	<u>\$ 5.3</u>	<u>\$ (2.1)</u>	<u>\$ (0.8)</u>	<u>\$ (1.6)</u>

*Sales of Businesses and Investments* – During the first half of 2011, we recognized a loss relating to the sale of a business in the domestic market within our Integrated Agency Networks (“IAN”) segment. During the second quarter of 2010, we recognized a loss primarily related to the sale of one of our European businesses.

*Vendor Discounts and Credit Adjustments* – We are in the process of settling our liabilities related to vendor discounts and credits established as part of the 2004 Restatement. These adjustments reflect the reversal of certain of these liabilities as a result of settlements with clients or vendors or where the statute of limitations has lapsed.

**Share Repurchase Program**

On February 24, 2011 our Board of Directors (the “Board”) authorized a program to repurchase from time to time up to \$300.0 of our common stock. We may effect such repurchases through open market purchases, trading plans established in accordance with SEC rules, derivative transactions or other means. The timing and amount of repurchases under the authorization will depend on market conditions and our other funding requirements. The share repurchase program has no expiration date. During the period since the Board’s authorization we repurchased 12.0 shares that have settled through June 30, 2011, at an average price of \$11.61 per share and an aggregate cost of \$139.0, including fees. We expect to continue to repurchase our common stock in future periods, although the timing and amount of the repurchases will depend on market conditions and our other funding requirements.

**Redeemable Noncontrolling Interests**

The following table presents changes in our redeemable noncontrolling interests.

	Six months ended June 30,

Redemption value adjustments <sup>1</sup>	11.0	4.2
Balance at end of period	\$ 272.1	\$ 269.4

<sup>1</sup> Redeemable noncontrolling interests are reported at their estimated redemption value in each reporting period, but not less than their initial fair value. Any adjustment to the redemption value impacts additional paid-in capital, except adjustments as a result of currency translation.

**Note 5: Income Taxes**

For the three months ended June 30, 2011, our effective tax rate of 30.5% was positively impacted from the recognition of previously unrecognized tax benefits primarily as a result of the settlement of the 2007-2008 IRS audit cycle.

In addition to the positive factor noted above, the effective tax rate for the six months ended June 30, 2011 of 32.3% was positively impacted due to tax efficiencies from entity consolidation in the Asia Pacific region and the loss relating to the sale of a business in the domestic market. The effective tax rate was negatively impacted by state and local taxes, losses in certain foreign locations where we receive no tax benefit due to 100% valuation allowances and the net establishment of valuation allowances, primarily in the United Kingdom.

We have various tax years under examination by tax authorities in various countries, such as the United Kingdom, and in various states, such as New York, in which we have significant business operations. It is not yet known whether these examinations will, in the aggregate, result in our paying additional taxes. We believe our tax reserves are adequate in relation to the potential for additional assessments in each of the jurisdictions in which we are subject to taxation. We regularly assess the likelihood of additional tax assessments in those jurisdictions and, if necessary, adjust our reserves as additional information or events require.

With respect to all tax years open to examination by U.S. federal, various state and local, and non-U.S. tax authorities, we currently anticipate that total unrecognized tax benefits will decrease by an amount between \$3.0 and \$13.0 in the next twelve months, a portion of which will affect the effective tax rate, primarily as a result of the settlement of tax examinations and the lapsing of statutes of limitations. This net decrease is related to various items of income and expense, primarily transfer pricing adjustments.

We are effectively settled with respect to U.S. income tax audits for years prior to 2009. With limited exceptions, we are no longer subject to state and local income tax audits for years prior to 1999, or non-U.S. income tax audits for years prior to 2003.

**Note 7: Incentive Compensation Plans**

We issue stock-based compensation and cash awards to our employees under a plan established by the Compensation and Leadership Talent Committee of the Board of Directors (the “Compensation Committee”) and approved by our shareholders.

We issued the following stock-based awards under the 2009 Performance Incentive Plan (the “2009 PIP”) during the six months ended June 30, 2011.

	Awards	Weighted-average grant-date fair value (per award)
Stock options	0.7	\$ 4.73
Stock-settled awards	0.7	\$ 12.83
Performance-based awards	1.8	\$ 11.43
Total stock-based compensation awards	<u>3.2</u>	

During the six months ended June 30, 2011, the Compensation Committee granted performance cash awards under the 2009 PIP with a total target value of \$71.0. Of this amount, awards with a total target value of \$31.8 will be settled in shares upon vesting. The number of shares to be settled on the vesting date will be calculated as the cash value adjusted for performance divided by our stock price on the vesting date. Additionally, during the six months ended June 30, 2011, the Compensation Committee granted cash awards under the Interpublic Restricted Cash Plan with a total target value of \$1.9. Cash awards will be amortized over the vesting period, typically three years.

**Note 8: Employee Benefits**

We have a domestic pension plan which covers certain U.S. employees. We also have numerous foreign pension plans outside the U.S., some of which are funded, while others provide payments at the time of retirement or termination under applicable labor laws or agreements. Some of our domestic and foreign agencies also provide postretirement benefits to eligible employees and their dependents. Certain immaterial foreign pension and postretirement plans have been excluded from the table below. The components of net periodic cost for the domestic pension plan, the principal foreign pension plans and the postretirement benefit plan are listed below.

**Note 9: Segment Information**

We have two reportable segments: IAN, which is comprised of McCann Worldgroup, Draftfcb, Lowe, Mediabrands and our domestic integrated agencies, and Constituency Management Group (“CMG”), which is comprised of a number of our specialist marketing services offerings. We also report results for the “Corporate and other” group. The profitability measure employed by our chief operating decision maker for allocating resources to operating divisions and assessing operating division performance is operating income, excluding the impact of restructuring and other reorganization-related charges, net and long-lived asset impairment and other charges, if applicable. Other than certain reclassifications, the segment information is presented consistently with the basis described in our 2010 Annual Report on Form 10-K.

**Note 10: Fair Value Measurements**

Authoritative guidance for fair value measurements establishes a fair value hierarchy which requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. We primarily apply the market approach for recurring fair value measurements. There are three levels of inputs that may be used to measure fair value:

- Level 1** Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

There were no changes to our valuation techniques used to measure the fair value of assets and liabilities on a recurring basis during the six months ended June 30, 2011. The following tables present information about our assets and liabilities measured at fair value on a recurring basis as of June 30, 2011, and June 30, 2010, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

<b>Liabilities</b>					
Mandatorily redeemable noncontrolling interests <sup>1</sup>	\$ 0.0	\$ 0.0	\$ 61.8	\$ 61.8	

<sup>1</sup> Relates to unconditional obligations to purchase additional noncontrolling equity shares of consolidated subsidiaries. Fair value measurement of the obligation was based upon the amount payable as if the forward contracts were settled. The amount redeemable within the next twelve months is classified in accrued liabilities; any interests redeemable thereafter are classified in other non-current liabilities.

<sup>2</sup> Fair value is derived from changes in market value of obligations denominated in foreign currency based on an internal valuation model.

Level 3 reductions primarily consist of payments made related to unconditional obligations to purchase additional equity interests in previous acquisitions for cash, which are classified within the financing section of the unaudited Consolidated Statements of Cash Flows. Level 3 additions relate to unconditional obligations to purchase additional equity interests in previous acquisitions for cash in future periods. Realized losses included in net income for foreign currency derivatives and mandatorily redeemable noncontrolling interests are reported as a component of other income (expense), net and interest expense, respectively, in the unaudited Consolidated Statements of Operations.

#### **Note 11: Commitments and Contingencies**

##### **Legal Matters**

We are involved in legal proceedings, and subject to investigations, inspections, audits, inquiries and similar actions by governmental authorities, arising in the normal course of our business. While any litigation or such governmental proceeding contains an element of uncertainty, we do not believe that the outcome of such proceedings will have a material adverse effect on our financial condition, results of operations or cash flows.

##### **Guarantees**

As discussed in our 2010 Annual Report on Form 10-K, we have guarantees of certain obligations of our subsidiaries relating principally to credit facilities and operating leases of certain subsidiaries. The amount of parent company guarantees on lease obligations was \$366.1 and \$376.8 as of June 30, 2011 and December 31, 2010, respectively, and the amount of parent company guarantees primarily relating to credit facilities was \$332.7 and \$395.0 as of June 30, 2011 and December 31, 2010, respectively.

#### **Note 12: Recent Accounting Standards**

##### **Comprehensive Income**

In June 2011, the Financial Accounting Standards Board ("FASB") issued amended guidance for presenting comprehensive income, which will be effective for us beginning January 1, 2012. The amended guidance eliminates the option to present other comprehensive income and its components in the statement of stockholders' equity. We may elect to present the items of net income and other comprehensive income in a single continuous statement of comprehensive income or in two separate, but consecutive, statements. Under either method the statement would need to be presented with equal prominence as the other primary financial statements. We do not expect the adoption of the amended guidance to have a significant impact on our unaudited Consolidated Financial Statements.

***Fair Value Measurements***

In May 2011, the FASB issued amended guidance for measuring fair value and required disclosure information about such measures, which will be effective for us beginning January 1, 2012, and applied prospectively. The amended guidance requires an entity to disclose all transfers between Level 1 and Level 2 of the fair value hierarchy as well as provide quantitative and qualitative disclosures related to Level 3 fair value measurements. Additionally, the amended guidance requires an entity to disclose the fair value hierarchy level which was used to determine the fair value of financial instruments that are not measured at fair value, but for which fair value information must be disclosed. We do not expect the adoption of the amended guidance to have a significant impact on our unaudited Consolidated Financial Statements.

In January 2010, the FASB issued amended guidance to enhance disclosure requirements related to fair value measurements. The amended guidance for Level 1 and Level 2 fair value measurements was effective for us January 1, 2010. The amended guidance for Level 3 fair value measurements was effective for us January 1, 2011. The guidance requires disclosures of amounts and reasons for transfers in and out of Level 1 and Level 2 recurring fair value measurements as well as additional information related to activities in the reconciliation of Level 3 fair value measurements. The guidance expanded the disclosures related to the level of disaggregation of assets and liabilities and information about inputs and valuation techniques. The adoption of this amended guidance did not have a significant impact on our unaudited Consolidated Financial Statements.

***Goodwill***

In December 2010, the FASB issued amended guidance for performing goodwill impairment tests, which was effective for us January 1, 2011. The amended guidance requires reporting units with zero or negative carrying amounts to be assessed to determine if it is more likely than not that goodwill impairment exists. As part of this assessment, entities should consider all qualitative factors that could impact the carrying value. The adoption of this amended guidance did not have a significant impact on our unaudited Consolidated Financial Statements.

***Revenue Recognition***

In March 2010, the Emerging Issues Task Force (“EITF”) reached a consensus related to guidance when applying the milestone method of revenue recognition. The consensus was issued by the FASB as an update to authoritative guidance for revenue recognition and was effective for us January 1, 2011. The amended guidance provides criteria for identifying those deliverables in an arrangement that meet the definition of a milestone. In addition, the amended guidance includes enhanced quantitative and qualitative disclosures about the arrangements when an entity recognizes revenue using the milestone method. The adoption of this amended guidance did not have a significant impact on our unaudited Consolidated Financial Statements.

In September 2009, the EITF reached a consensus related to revenue arrangements with multiple deliverables. The consensus was issued by the FASB as an update to authoritative guidance for revenue recognition and was effective for us January 1, 2011. The updated guidance revises how the estimated selling price of each deliverable in a multiple element arrangement is determined when the deliverables do not have stand-alone value. In addition, the guidance requires additional disclosures about the methods and assumptions used to evaluate multiple element arrangements and to identify the significant deliverables within those arrangements. The amended guidance did not have a significant impact on our unaudited Consolidated Financial Statements.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help you understand The Interpublic Group of Companies, Inc. and its subsidiaries ("IPG," "we," "us" or "our"). MD&A should be read in conjunction with our unaudited Consolidated Financial Statements and the accompanying notes included in this report, our 2010 Annual Report on Form 10-K, as well as our other reports on Form 8-K and other Securities and Exchange Commission ("SEC") filings. Our Annual Report includes additional information about our significant accounting policies and practices as well as details about our most significant risks and uncertainties associated with our financial and operating results. Our MD&A includes the following sections:

EXECUTIVE SUMMARY provides a discussion about our strategic outlook, factors influencing our business and an overview of our results of operations and liquidity.

RESULTS OF OPERATIONS provides an analysis of the consolidated and segment results of operations for the periods presented.

LIQUIDITY AND CAPITAL RESOURCES provides an overview of our cash flows, funding requirements, financing and sources of funds and debt credit ratings.

CRITICAL ACCOUNTING ESTIMATES provides an update to the discussion of our accounting policies that require critical judgment, assumptions and estimates in our 2010 Annual Report on Form 10-K.

RECENT ACCOUNTING STANDARDS, by reference to Note 12 to the unaudited Consolidated Financial Statements, provides a discussion of certain accounting standards that have been adopted during 2011 or that have not yet been required to be implemented and may be applicable to our future operations.

**EXECUTIVE SUMMARY**

We are one of the world's premier global advertising and marketing services companies. Our companies specialize in consumer advertising, digital marketing, media planning and buying, public relations and specialized communications disciplines, and create customized marketing programs for many of the world's largest advertisers. Comprehensive global services are critical to effectively serve our multinational and local clients in markets throughout the world, as they seek to build brands, increase sales of their products and services and gain market share.

Our business objective is to continue to strengthen our full range of marketing expertise and competitive positioning in the market place. To support our objectives, we develop and invest in a range of talent, tools and businesses that are highly relevant to the needs of our clients and offer us strong financial returns. These include investments in rapidly growing marketing channels and geographic regions as well as key strategic world markets. We operate in a media landscape that is constantly changing. Accordingly, we remain focused on meeting the evolving needs of our clients in an increasingly complex consumer environment.

Our financial priorities include maintaining competitive organic revenue growth, improving our operating margins, continuing to strengthen our liquidity profile and increasing value to our shareholders, which includes our common stock dividend and share repurchase program initiated earlier this year. We continually seek greater efficiency in the delivery of our services, focusing on more effective resource utilization, including the productivity of our employees, real estate and information technology. The improvements we have made in our financial reporting and business information systems during recent years allow us more timely and actionable insights from our global operations. We continue to derive benefits from our diversified client base, global footprint and the broad range and strength of our professional offerings. Additionally, our conservative approach to our balance sheet and liquidity provides us with a solid financial foundation and financial flexibility to manage our business.

When we analyze period-to-period changes in our operating performance we determine the portion of the change that is attributable to foreign currency rates and the net effect of acquisitions and divestitures, and the remainder we call organic change, which indicates how our underlying business performed. The performance metrics that we use to analyze our results include the organic change in revenue, salaries and related expenses and office and general expenses, and the components of operating expenses, expressed as a percentage of total consolidated revenue. Additionally, in certain of our discussions we analyze revenue by business sector, where we focus on our top 100 clients, which typically constitute approximately 55%-60% of our annual consolidated revenues. We also analyze revenue by geographic region.

The change in our operating performance attributable to foreign currency rates is determined by converting the prior-period reported results using the current-period exchange rates and comparing these prior-period adjusted amounts to the prior-period reported results. Although the U.S. Dollar is our reporting currency, a substantial portion of our revenues and expenses are generated in foreign currencies. Therefore, our reported results are affected by fluctuations in the currencies in which we conduct our international businesses. We do not use derivative financial instruments to manage this translation risk. As a result, both positive and negative currency fluctuations against the U.S. Dollar affect our consolidated results of operations, and the magnitude of the foreign currency impact on us related to each geographic region depends on the significance and operating performance of the region. The primary foreign currencies that impacted our results during the first half of 2011 include the Australian Dollar, Brazilian Real, Euro and Pound Sterling. During the first half of 2011, primarily in the second quarter of 2011, the U.S. Dollar weakened against all foreign currencies in regions where we primarily conduct our business as compared to the prior-year period, which had a positive impact on our consolidated results of operations. For the second quarter of 2011, foreign currency fluctuations resulted in increases of approximately 4% in revenues, salaries and related expenses and office and general expenses, which negatively impacted our operating margin percentage by 20 basis points. For the first half of 2011, foreign currency fluctuations resulted in increases of approximately 2% in revenues and salaries and related expenses and approximately 3% in office and general expenses, which had virtually no impact on our operating margin percentage.

For purposes of analyzing changes in our operating performance attributable to the net effect of acquisitions and divestitures, transactions are treated as if they occurred on the first day of the quarter during which the transaction occurred. During the past few years we have acquired companies that we believe will enhance our offering and disposed of businesses that are not consistent with our strategic plan. For the second quarter and first half of 2011, the net effect of acquisitions and divestitures had a minimal impact on revenue and operating expenses compared to the respective prior-year periods.

During the second quarter of 2011, our revenue increased by \$129.0, or 8.0%, compared to the second quarter of 2010, primarily consisting of an organic revenue increase of \$76.2, or 4.7%, and a favorable foreign currency rate impact of \$57.5. Our organic increase was attributable to net client wins and higher spending from existing clients in nearly all geographic regions. The sectors which contributed to the organic revenue increase were health and personal care, and auto and transportation. These increases were partially offset by decreases in the packaged goods sector. Regionally, the largest organic revenue increase was in our domestic market, primarily related to the factors noted above. In our international markets, the organic revenue increase occurred in nearly all regions, including the United Kingdom, the Asia Pacific region, primarily in India and China, and our Other region, primarily in South Africa. The Continental Europe region contributed to the organic revenue increase, although this region is still being negatively impacted by certain European countries where a continued weakened economic climate persists.

Our revenue is directly impacted by our ability to win new clients and the retention and spending levels of existing clients. Most of our expenses are recognized ratably throughout the year and are therefore less seasonal than revenue. Our revenue is typically lowest in the first quarter and highest in the fourth quarter. This reflects the seasonal spending of our clients, incentives earned at year end on various contracts and project work completed that is typically recognized during the fourth quarter. Additionally, revenues can fluctuate due to the timing of completed projects in the events marketing business, as revenue is typically recognized when the project is complete. We generally act as principal for these projects and as such record the gross amount billed to the client as revenue and the related costs incurred as pass-through costs in office and general expenses.

During the first half of 2011, our revenue increased by \$266.8, or 9.0%, compared to the first half of 2010, primarily consisting of an organic revenue increase of \$201.1, or 6.8%, and a favorable foreign currency rate impact of \$70.7. Our organic increase was primarily driven by factors similar to those noted above for the second quarter of 2011. Also contributing to our organic revenue increase during the first half of 2011 was increases in the technology and telecom sector. The Latin America region also contributed to the organic revenue increase due to higher revenues in Brazil in the first half of 2011 when compared to the prior-year period.

Our staff cost ratio, defined as salaries and related expenses as a percentage of total consolidated revenue, increased in the second quarter of 2011 to 62.9% from 61.5% when compared to the prior-year period. Salaries and related expenses in the second quarter of 2011 increased by \$104.7 compared to the second quarter of 2010, primarily consisting of an organic increase of \$68.8 and an adverse foreign currency rate impact of \$37.4. The organic increase was due to higher base salaries, benefits and temporary help of \$60.6 incurred to support business growth that began in 2010. We have increased our workforce over the past several quarters as our businesses have grown. Also contributing to the organic increase was higher incentive award expense and severance expense. The organic increase occurred across all regions, primarily in our domestic market.

Our staff cost ratio increased in the first half of 2011 to 67.7% from 66.8% in the first half of 2010. Salaries and related expenses in the first half of 2011 increased by \$205.5 compared to the first half of 2010, primarily consisting of an organic increase of \$160.2 and an adverse foreign currency rate impact of \$46.7. The organic increase was due to higher base salaries, benefits and temporary help of \$127.9 due to the factors noted above for the second quarter of 2011 and, to a lesser extent, increases in severance expense and incentive award expense. The organic increase occurred across all regions, primarily in our domestic market.

The following table details our staff cost ratio.

Our office and general expense ratio, defined as office and general expenses as a percentage of total consolidated revenue, decreased in the second quarter of 2011 to 27.0% from 27.5% in the second quarter of 2010. Office and general expenses in the second quarter of 2011 increased by \$27.9 compared to the second quarter of 2010, primarily consisting of an adverse foreign currency rate impact of \$17.3 and an organic increase of \$12.6. The organic increase was primarily due to higher production expenses related to pass-through costs for certain projects where we acted as a principal that increased in size or were new during the second quarter of 2011. Also contributing to the organic increase was higher discretionary spending to support business growth.

Our office and general expense ratio decreased in the first half of 2011 to 28.3% from 29.2% in the first half of 2010. Office and general expenses in the first half of 2011 increased by \$50.3 compared to the first half of 2010, primarily consisting of an organic increase of \$30.2 and an adverse foreign currency rate impact of \$21.7. The organic increase was driven by factors similar to those noted above for the second quarter of 2011.

The following table details our office and general expense ratio. All other office and general expenses primarily include production expenses, and, to a lesser extent, depreciation and amortization, bad debt expense, foreign currency gains (losses) and other expenses.

Results of operations for the three and six months ended June 30, 2011 and 2010 include certain items which are not directly associated with our revenue-producing operations.

	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Gains (losses) on sales of businesses and investments	0.3	(3.3)	(6.2)	(3.1)

Other income (expense), net	2.2	(1.0)	2.5	(0.5)
Total other income (expense), net	\$ 5.3	\$ (2.1)	\$ (0.8)	\$ (1.6)

*Sales of Businesses and Investments* – During the first half of 2011, we recognized a loss relating to the sale of a business in the domestic market within our Integrated Agency Networks (“IAN”) segment. During the second quarter of 2010, we recognized a loss primarily related to the sale of one of our European businesses.

*Vendor Discounts and Credit Adjustments* – We are in the process of settling our liabilities related to vendor discounts and credits established as part of the 2004 Restatement. These adjustments reflect the reversal of certain of these liabilities as a result of settlements with clients or vendors or where the statute of limitations has lapsed.

**INCOME TAXES**

	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Income before income taxes	\$ 155.9	\$ 146.2	\$ 80.9	\$ 61.2
Provision for income taxes	\$ 47.6	\$ 63.3	\$ 26.1	\$ 48.0
Effective tax rate	30.5%	43.3%	32.3%	78.4%

Our tax rates are affected by many factors, including our worldwide earnings from various countries, changes in legislation and tax characteristics of our income. For the three months ended June 30, 2011 our effective tax rate of 30.5% was positively impacted from the recognition of previously unrecognized tax benefits primarily as a result of the settlement of the 2007-2008 IRS audit cycle.

In addition to the positive factor noted above, the effective tax rate for the six months ended June 30, 2011 of 32.3% was positively impacted due to tax efficiencies from entity consolidation in the Asia Pacific region and the loss relating to the sale of a business in the domestic market. The effective tax rate was negatively impacted by state and local taxes, losses in certain foreign locations where we receive no tax benefit due to 100% valuation allowances and the net establishment of valuation allowances, primarily in the United Kingdom.

For the three and six months ended June 30, 2010, the difference between the effective tax rate and the statutory rate of 35% was primarily due to state and local taxes and the write-off of deferred tax assets related to restricted stock. For the six months ended June 30, 2010, the difference between the effective tax rate and the statutory rate of 35% was also due to losses in certain foreign locations for which we receive no tax benefit due to 100% valuation allowances and the establishment of valuation allowances in Europe.

During the second quarter of 2011, IAN revenue increased by \$108.5 compared to the second quarter of 2010, primarily consisting of an organic revenue increase of \$53.7 and a favorable foreign currency rate impact of \$50.9. The increase in revenue at our IAN segment represented approximately 70% of the total organic revenue increase. The organic revenue increase was attributable to net clients wins and higher spending from existing clients in nearly all geographic regions, predominantly in our domestic market, at most of our advertising and media businesses. The sectors which primarily contributed to the organic revenue increase were health and personal care, auto and transportation and, to a lesser extent, technology and telecom. The international organic increase occurred in nearly all regions, including our Other region, primarily in South Africa, the Asia Pacific region, primarily in India, and the United Kingdom. There was also a slight organic revenue increase in Continental Europe, although this region is still being negatively impacted by certain European countries where a continued weakened economic climate persists.

Operating income decreased during the second quarter of 2011 when compared to the second quarter of 2010 as the increase in revenue of \$108.5 was offset by increases in salaries and related expenses of \$86.5 and office and general expenses of \$27.3. The increase in salaries and related expenses was primarily due to higher base salaries, benefits and temporary help across most of the agencies within IAN to support business growth over the past several quarters. Also contributing to the increase in salaries and related expenses were higher incentive award expense and severance expense compared to the prior-year period. Office and general expenses increased primarily due to higher production expenses and, to a lesser extent, higher discretionary spending to support business growth.

Operating income increased during the first half of 2011 when compared to the first half of 2010 due to an increase in revenue of \$235.2, partially offset by increases in salaries and related expenses of \$178.3 and office and general expenses of \$50.3. The increase in salaries and related expenses and office and general expenses was driven by factors similar to those noted above for the second quarter of 2011.

During the second quarter of 2011, CMG revenue increased by \$20.5 compared to the second quarter of 2010, consisting of an organic revenue increase of \$22.5 and a favorable foreign currency rate impact of \$6.6, partially offset by the effect of net divestitures of \$8.6. The organic revenue increase was primarily due to net client wins and occurred in all disciplines, primarily in our public relations, events marketing and branding businesses. The international organic increase was throughout nearly all regions, most notably in the United Kingdom and the Asia Pacific region, primarily in China. Revenues in the events marketing business can fluctuate due to timing of completed projects where we act as principal, as revenue is typically recognized when the project is complete. The reduction in revenue due to net divestitures primarily relates to the sale of a business in our domestic market in the fourth quarter of 2010.

During the first half of 2011, CMG revenue increased by \$31.6 compared to the first half of 2010, consisting of an organic revenue increase of \$40.3 and a favorable foreign currency rate impact of \$8.1, partially offset by the effect of net divestitures of \$16.8. The organic revenue increase occurred in most disciplines and was driven by factors similar to those noted above for the second quarter of 2011.

Operating income increased during the second quarter of 2011 when compared to the second quarter of 2010 due to an increase in revenue of \$20.5, partially offset by increases in salaries and related expenses of \$11.1 and office and general expenses of \$3.2. Salaries and related expenses increased across most disciplines primarily due to higher base salaries, benefits and temporary help to support business growth. Office and general expenses increased primarily due to higher production expenses.

Operating income increased during the first half of 2011 when compared to the first half of 2010 due to an increase in revenue of \$31.6, partially offset by increases in salaries and related expenses of \$17.3 and office and general expenses of \$5.1, driven by factors similar to those noted above for the second quarter of 2011. In addition, the increase in office and general expenses was due to higher discretionary spending.

**CORPORATE AND OTHER**

Certain corporate and other charges are reported as a separate line item within total segment operating income and include corporate office expenses and shared service center expenses, as well as certain other centrally managed expenses that are not fully allocated to operating divisions. Salaries and related expenses include salaries, long-term incentives, annual bonuses and other miscellaneous benefits for corporate office employees. Office and general expenses primarily include professional fees related to internal control compliance, financial statement audits and legal, information technology and other consulting services, which are engaged and managed through the corporate office. In addition, office and general expenses also include rental expense and depreciation of leasehold improvements for properties occupied by corporate office employees. A portion of these expenses are allocated to operating divisions based on a formula that uses the planned revenues of each of the operating units. Amounts allocated also include specific charges for information technology-related projects, which are allocated based on utilization.

Corporate and other expenses increased during the second quarter of 2011 by \$4.5 to \$38.5 compared to the second quarter of 2010, and increased by \$4.8 to \$72.3 during the first half of 2011 compared to the first half of 2010, primarily due to higher base salaries, benefits and temporary help and, to a lesser extent, higher severance and incentive award expense.

Long-term debt	1,167.8	1,583.3	1,628.0
Total debt	<u>\$ 1,766.4</u>	<u>\$ 1,737.0</u>	<u>\$ 1,913.9</u>

*Operating Activities*

Net cash used in operating activities during the first half of 2011 was \$601.7, which is an increase of \$399.5 as compared to the first half of 2010, primarily as a result of an increase in working capital usage of \$352.1. Due to the seasonality of our business, we typically generate cash from working capital in the second half of a year and use cash from working capital in the first half of a year, with the largest impacts in the first and fourth quarters. The net working capital usage in the first half of 2011 was primarily impacted by our media businesses.

The timing of media buying on behalf of our clients affects our working capital and operating cash flow. In most of our businesses, our agencies enter into commitments to pay production and media costs on behalf of clients. To the extent possible we pay production and media charges after we have received funds from our clients. The amounts involved substantially exceed our revenues, and primarily affect the level of accounts receivable, expenditures billable to clients, accounts payable and accrued media and production liabilities. Our assets include both cash received and accounts receivable from clients for these pass-through arrangements, while our liabilities include amounts owed on behalf of clients to media and production suppliers.

Our accrued liabilities are also affected by the timing of certain other payments. For example, while annual cash incentive awards are accrued throughout the year, they are generally paid during the first quarter of the subsequent year.

*Investing Activities*

Net cash used in investing activities during the first half of 2011 primarily reflects capital expenditures and payments for acquisitions. Capital expenditures of \$53.1 relate primarily to computer software and hardware and leasehold improvements. Payments for acquisitions of \$38.6 relate to new acquisitions and deferred payments on prior acquisitions.

*Financing Activities*

Net cash used in financing activities during the first half of 2011 primarily relates to the repurchase of 12.0 shares of our common stock, which was settled, resulting in an aggregate cost of \$139.0, including fees. Additionally, net cash used in financing activities includes dividend payments of \$56.8 on our common stock and acquisition related payments of \$47.6, primarily related to transactions with consolidated subsidiaries where we have increased our ownership interests.

**(Unaudited)**

*Foreign Exchange Rate Changes*

The effect of foreign exchange rate changes on cash and cash equivalents included in the unaudited Consolidated Statements of Cash Flows resulted in an increase of \$41.0 during the first half of 2011. This increase primarily reflects the strengthening of the Euro, as well as several other foreign currencies, against the U.S. Dollar as of June 30, 2011, as compared to December 31, 2010.

**LIQUIDITY OUTLOOK**

We expect our cash flow from operations, cash and cash equivalents to be sufficient to meet our anticipated operating requirements at a minimum for the next twelve months. We also have a committed corporate credit facility available to support our operating needs. We continue to maintain a conservative approach to liquidity, with flexibility over significant uses of cash, including our capital expenditures, cash used for new acquisitions, our common stock repurchase program and our common stock dividends.

From time to time we evaluate market conditions and financing alternatives for opportunities to raise additional financing or otherwise improve our liquidity profile, enhance our financial flexibility and manage market risk. Our ability to access the capital markets depends on a number of factors, which include those specific to us, such as our credit rating, and those related to the financial markets, such as the amount or terms of available credit. There can be no guarantee that we would be able to access new sources of liquidity on commercially reasonable terms, or at all.

*Funding Requirements*

Our most significant funding requirements include: our operations, non-cancelable operating lease obligations, capital expenditures, acquisitions, dividends, taxes, debt service and contributions to pension and postretirement plans. Additionally, we may be required to make payments to minority shareholders in certain subsidiaries if they exercise their options arising from prior acquisitions to sell us their interests. Notable funding requirements include:

- Acquisitions – We will continue to evaluate strategic opportunities to grow and to increase our ownership interests in current investments, particularly in our digital and marketing services offerings, and to expand our presence in high-growth and key strategic world markets. In addition to potential cash expenditures for new acquisitions, we expect to pay approximately \$12.0 for the remainder of 2011 related to prior acquisitions. We may also be required to pay approximately \$33.0 related to put options held by minority shareholders that are exercisable during 2011.
- Dividends – In the first quarter of 2011 we initiated regular quarterly cash dividends on our common stock. Most recently, on May 26, 2011 our Board of Directors (“Board”) declared a dividend of \$0.06 per share on our common shares, payable on June 24, 2011 to holders of record at the close of business on June 10, 2011. On June 10, 2011, we had 471.0 shares outstanding (excluding restricted shares), which corresponded to an aggregate dividend payment of \$28.3. Assuming a quarterly dividend of \$0.06 per share and no significant change in the number of outstanding shares, we expect to pay approximately \$113.0 over the next twelve months. We also pay regular quarterly dividends of \$2.9, or \$11.6 annually, on our Series B Preferred Stock.
- Debt service – Our 7.25% Senior Unsecured Notes due 2011 (the “2011 Notes”) mature on August 15, 2011. As of June 30, 2011, we had \$36.3 aggregate principal amount of the 2011 Notes outstanding, and we expect to use available cash to retire these outstanding notes. On March 15, 2012 holders, of our \$400.0 4.25% Convertible Senior Notes due 2023 may require us to repurchase their notes for cash at par. The remainder of our debt is primarily long-term, with maturities scheduled through 2023.
- Contributions to pension plans – Our funding policy regarding our pension plans is to make contributions necessary to satisfy minimum pension funding requirements, plus such additional contributions as we consider appropriate to improve the plans’ funded status. During the six months ended June 30, 2011, we contributed \$12.5 of cash to our domestic pension plan and \$12.1 of cash to our foreign pension plans. For the remainder of 2011, we expect to contribute approximately \$1.6 and \$11.8 of cash to our domestic and foreign pension plans, respectively.

*Share Repurchase Program*

On February 24, 2011 our Board authorized a program to repurchase from time to time up to \$300.0 of our common stock. We may effect such repurchases through open market purchases, trading plans established in accordance with SEC rules, derivative transactions or other means. The share repurchase program has no expiration date. We expect to continue to repurchase our common stock in future periods, although the timing and amount of the repurchases will depend on market conditions and our other funding requirements. As of June 30, 2011, there remains approximately \$161.0 available for future repurchases under the program.

**FINANCING AND SOURCES OF FUNDS**

Substantially all of our operating cash flow is generated by our agencies. Our cash balances are held in numerous jurisdictions throughout the world, primarily at the holding company level and at our largest subsidiaries. Below is a summary of our sources of liquidity.

	June 30, 2011			
	Total Facility	Amount Outstanding	Letters of Credit <sup>1</sup>	Total Available
Cash, cash equivalents and marketable securities				\$ 1,824.0
Committed credit agreement	\$ 1,000.0	\$ 0.0	\$ 15.7	\$ 984.3
Uncommitted credit arrangements	\$ 472.4	\$ 150.0	\$ 0.1	\$ 322.3

<sup>1</sup> We are required from time to time to post letters of credit, primarily to support obligations of our subsidiaries. These letters of credit have historically not been drawn upon.

*Credit Facilities*

We maintain a committed corporate credit facility to increase our financial flexibility. On May 31, 2011, we entered into an amendment and restatement of our credit agreement originally dated as of July 18, 2008 (the "Credit Agreement"), increasing the commitments of the lenders to \$1,000.0 from \$650.0, and extending the Credit Agreement's expiration to May 31, 2016. Additionally, the amendments modified our financial covenants, and provided additional flexibility with respect to, or eliminated, certain covenants such as restrictions on acquisitions, capital expenditures and restricted payments. In addition, the cost structure was reduced.

We were in compliance with all of our covenants in the Credit Agreement as of June 30, 2011. The financial covenants in the Credit Agreement require that we maintain, as of the end of each fiscal quarter, certain financial measures for the four quarters then ended. As of June 30, 2011, we had received investment-grade ratings from two of the major credit ratings agencies, and consequently we are not required to satisfy a minimum EBITDA financial covenant and no longer have limitations on restricted payments. The table below sets forth the financial covenants in effect as of June 30, 2011.

Financial Covenants	Four Quarters Ended	EBITDA Reconciliation	Four Quarters Ended
	June 30, 2011		June 30, 2011
Interest coverage ratio (not less than)	4.50x	Operating income	\$ 559.6
Actual interest coverage ratio	6.86x	Add:	
		Depreciation and amortization	200.4
Leverage ratio (not greater than)	3.25x	Other non-cash amounts	(1.2)
Actual leverage ratio	2.33x	EBITDA	\$ 758.8

If we were unable to comply with our covenants in the future, we would seek an amendment or waiver from our lenders, but there is no assurance that our lenders would grant an amendment or waiver. If we were unable to obtain the necessary amendment or waiver, the credit facility could be terminated and our lenders could accelerate payments of any outstanding principal. In addition, under those circumstances we could be required to deposit funds with one of our lenders in an amount equal to any outstanding letters of credit under the credit facility.

We also have uncommitted credit facilities with various banks that permit borrowings at variable interest rates. We use our uncommitted credit lines for working capital needs at some of our operations outside the United States. We have guaranteed the repayment of some of these borrowings made by certain subsidiaries. If we lose access to these credit lines, we would have to provide funding directly to some of our international operations. As of June 30, 2011, the weighted-average interest rate on outstanding balances under the uncommitted credit facilities was approximately 5.0%.

*Cash Pooling*

We aggregate our net domestic cash position on a daily basis. Outside the United States we use cash pooling arrangements with banks to help manage our liquidity requirements. In these pooling arrangements, several IPG agencies agree with a single bank that the cash balances of any of the agencies with the bank will be subject to a full right of setoff against amounts the other agencies owe the bank, and the bank provides for overdrafts as long as the net balance for all the agencies does not exceed an agreed-upon level. Typically, each agency pays interest on outstanding overdrafts and receives interest on cash balances. Our unaudited Consolidated Balance Sheets reflect cash, net of bank overdrafts, under all of our pooling arrangements, and as of June 30, 2011 the amount netted was \$1,103.8.

**DEBT CREDIT RATINGS**

Our long-term debt credit ratings as of July 15, 2011 are listed below.

	<b>Moody's Investor Service</b>	<b>Standard and Poor's</b>	<b>Fitch Ratings</b>
Rating	Baa3	BB+	BBB
Outlook	Stable	Stable	Stable

We are now rated investment grade by both Moody's Investor Services ("Moody's") and Fitch Ratings. The most recent update to our credit ratings occurred in June 2011 when Moody's upgraded our rating from Ba2 to Baa3, which is an investment grade rating, and changed our outlook from positive to stable. Additionally, in May 2011 Standard and Poor's upgraded our credit rating from BB to BB+, and changed our outlook from positive to stable. Previously, in October 2010, Fitch Ratings upgraded our rating from BB+ to BBB, which is an investment grade rating, and changed our outlook from positive to stable. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning credit rating agency. The rating of each credit rating agency should be evaluated independently of any other rating. Credit ratings could have an impact on liquidity, either adverse or favorable, including, among other things, because they could affect funding costs in the capital markets or otherwise. For example, our credit facility fees and borrowing rates are based on a credit ratings grid.

**CRITICAL ACCOUNTING ESTIMATES**

Our significant accounting policies are described in Note 1 to the Consolidated Financial Statements for the year ended December 31, 2010, included in our 2010 Annual Report on Form 10-K. As summarized in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report, we believe that certain of these policies are critical because they are important to the presentation of our financial condition and results of operations, and they require management's most difficult, subjective or complex judgments, often as a result of the need to estimate the effect of matters that are inherently uncertain. These critical estimates relate to revenue recognition, income taxes, goodwill and other intangible assets, and pension and postretirement benefits. We base our estimates on historical experience and various other factors that we believe to be relevant under the circumstances. Estimation methodologies are applied consistently from year to year, and there have been no significant changes in the application of critical accounting estimates since December 31, 2010. Actual results may differ from these estimates under different assumptions or conditions.

**RECENT ACCOUNTING STANDARDS**

See Note 12 to the unaudited Consolidated Financial Statements for further information on certain accounting standards that have been adopted during 2011 or that have not yet been required to be implemented and may be applicable to our future operations.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

In the normal course of business, we are exposed to market risks related to interest rates, foreign currency rates and certain balance sheet items. During the first half of 2011, we entered into and exited interest rate swap agreements, which we use to manage our exposure to changes in interest rates. We do not expect these swap agreements to materially alter our exposure to market risk. See Note 2 to the unaudited Consolidated Financial Statements for further information on our interest rate swap agreements. For a further discussion of our exposure to market risk, refer to Item 7A, *Quantitative and Qualitative Disclosures About Market Risk*, in our 2010 Annual Report on Form 10-K.

**Item 4. Controls and Procedures**

**Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2011, the Company’s disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

**Changes in Internal Control Over Financial Reporting**

There has been no change in internal control over financial reporting in the quarter ended June 30, 2011, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II – OTHER INFORMATION****Item 1. Legal Proceedings**

Information about our current legal proceedings is set forth in Note 11 to the unaudited Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

**Item 1A. Risk Factors**

In the second quarter of 2011, there have been no material changes in the risk factors we have previously disclosed in Item 1A, *Risk Factors*, in our 2010 Annual Report on Form 10-K.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c) The following table provides information regarding our purchases of our equity securities during the period from April 1, 2011 to June 30, 2011.

	Total Number of Shares (or Units) Purchased <sup>1</sup>	Average Price Paid per Share (or Unit) <sup>2</sup>	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs <sup>3</sup>	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs <sup>3</sup>
April 1 – 30	741,440	\$ 12.15	737,510	\$ 280,510,823
May 1 – 31	8,667,360	\$ 11.54	6,973,049	\$ 200,694,590
June 1 – 30	3,405,580	\$ 11.58	3,404,300	\$ 161,281,679
Total <sup>1</sup>	<u>12,814,380</u>	\$ 11.58	<u>11,114,859</u>	

1 Includes restricted shares of our common stock, par value \$0.10 per share, withheld under the terms of grants under employee stock-based compensation plans to offset tax withholding obligations that occurred upon vesting and release of restricted shares (the "Withheld Shares"). We repurchased 3,930 Withheld Shares in April 2011, 1,694,311 Withheld Shares in May 2011 and 1,280 Withheld Shares in June 2011, for a total of 1,699,521 Withheld Shares during the three-month period.

2 The average price per share for each of the months in the fiscal quarter and for the three-month period was calculated by dividing the sum for the applicable period of the aggregate value of the tax withholding obligations and the aggregate amount we paid for shares acquired under our program to repurchase our common stock, described in Note 4 to the unaudited Consolidated Financial Statements, by the sum of the number of Withheld Shares and the number of shares acquired in our stock repurchase program.

3 On February 25, 2011 we announced that on February 24, 2011 our Board of Directors approved a program to repurchase from time to time up to \$300 million of our common stock. There is no expiration date associated with the program.

**Working Capital Restrictions and Other Limitations on the Payment of Dividends**

The terms of our outstanding series of preferred stock do not permit us to pay dividends on our common stock unless all accumulated and unpaid dividends on our preferred stock have been or contemporaneously are declared and paid or provision for the payment thereof has been made.

The Credit Agreement contains a covenant that imposes certain limitations upon our ability to make dividend payments on our common stock. However, we are not required to comply with this restrictive covenant because we had received investment-grade ratings from two of the major credit ratings agencies, and therefore we have no restrictions on our ability to make these types of payments.

**COMPUTATION OF RATIOS OF EARNINGS TO FIXED CHARGES**  
**(Amounts in Millions, Except Ratios)**

	Six months ended June 30,	Years ended December 31,				
	2011	2010	2009	2008	2007	2006
<b>Earnings (loss) <sup>1</sup></b>						
Income (loss) from continuing operations before income taxes	\$ 80.9	\$ 450.6	\$ 232.4	\$ 471.5	\$ 235.7	\$ (5.0)
<b>Fixed charges <sup>1</sup></b>						
Interest expense	65.0	139.7	155.6	211.9	236.7	218.7
Interest factor of net operating rents <sup>2</sup>	87.9	172.8	181.4	183.9	185.6	185.1
Total fixed charges	<u>152.9</u>	<u>312.5</u>	<u>337.0</u>	<u>395.8</u>	<u>422.3</u>	<u>403.8</u>
<b>Earnings (loss), as adjusted</b>	<u>\$ 233.8</u>	<u>\$ 763.1</u>	<u>\$ 569.4</u>	<u>\$ 867.3</u>	<u>\$ 658.0</u>	<u>\$ 398.8</u>
<b>Ratio of earnings to fixed charges <sup>3</sup></b>	1.5	2.4	1.7	2.2	1.6	N/A

<sup>1</sup> Earnings (loss) consist of income (loss) from continuing operations before income taxes, equity in net income (loss) of unconsolidated affiliates and adjustments for net (income) loss attributable to noncontrolling interests. Fixed charges consist of interest on indebtedness, amortization of debt discount, waiver and other amendment fees, debt issuance costs (all of which are included in interest expense) and the portion of net rental expense deemed representative of the interest component (one-third).

<sup>2</sup> We have calculated the interest factor of net operating rent as one third of our operating rent, as this represents a reasonable approximation of the interest factor.

<sup>3</sup> We had a less than 1:1 ratio of earnings to fixed charges due to our losses in the year ended December 31, 2006. To provide a 1:1 coverage ratio for the deficient period results as reported would have required additional earnings of \$5.0 in the year ended December 31, 2006.
