INTRODUCTION

The Board of Directors (the “Board”) of The Interpublic Group of Companies, Inc. (“Interpublic,” “IPG,” the “Company,” “us,” “we” or “our”) is providing this Proxy Statement in connection with the 2023 Annual Meeting of Stockholders (the “Annual Meeting”), which will be held virtually, at 9:30 A.M., Eastern Time, on Thursday, May 25, 2023. Interpublic’s principal executive office is located at 909 Third Avenue, New York, NY 10022. The proxy materials are first being sent to stockholders beginning on or about April 14, 2023.

This Proxy Statement is also available on our website at <http://www.interpublic.com>.

FREQUENTLY ASKED QUESTIONS

Who Can Attend the Annual Meeting? How Do I Attend?

Stockholders of record as of the close of business on March 31, 2023 (the “Record Date”), or proxy holders for such stockholders, will be able to participate in the Annual Meeting.

To attend the Annual Meeting as a stockholder of record, visit www.meetnow.global/M7ALS2V and enter the 15-digit control number found on your proxy card, notice of internet availability of proxy materials or on the instructions that accompanied your proxy materials.

How are the proxy materials being distributed?

To expedite delivery, reduce our costs and decrease the environmental impact of our proxy materials, we used “Notice and Access” in accordance with the U.S. Securities and Exchange Commission (“SEC”) rule that allows companies to furnish their proxy materials over the internet. As a result, we are mailing to many of our stockholders of record a notice of the internet availability of the proxy materials in lieu of a paper copy of the proxy materials. All stockholders receiving this notice may access the proxy materials over the internet or request a paper copy of the proxy materials by mail. In addition, the notice has instructions on how you may request access to proxy materials by mail or electronically on an ongoing basis.

Choosing to access your future proxy materials electronically will reduce the costs of distributing our proxy materials and helps conserve natural resources. If you choose to access future proxy materials electronically in connection with future meetings, you will receive an email of a Notice and Access with instructions containing a link to the website where the proxy materials are available and a link to the proxy-voting website. Your election to access proxy materials electronically will remain in effect until it is terminated by you.

Who can vote?

You are entitled to vote or direct the voting of your shares of Interpublic common stock (the “Common Stock”) if you were a stockholder on March 31, 2023. On March 31, 2023, approximately 386,461,548 shares of Common Stock were outstanding.

Who is the holder of record?

You may own your shares of Common Stock either:

- directly registered in your name at our transfer agent, Computershare; or
- indirectly through a broker, bank or other intermediary.

If your shares are registered directly in your name, you are the holder of record of these shares, and we are sending these proxy materials directly to you. If you hold your shares through an intermediary, such as a bank or broker, you must register in advance to attend the Annual Meeting, unless you plan to attend as a guest. To register, you must obtain a legal proxy, executed in your favor, from the holder of record and submit proof of your legal proxy reflecting the number of shares of IPG common stock you held as of the Record Date, along with your name and email address, to Computershare.

Please forward the email from your broker or attach an image of your legal proxy to legalproxy@computershare.com. Requests for registration must be labeled as “Legal Proxy” and be received no later than 5:00 P.M. Eastern Time, on May 22, 2023. You will then receive a confirmation of your registration, with a 15-digit control number, by email from Computershare. At the time of the meeting, visit www.meetnow.global/M7ALS2V and enter your control number.

Attending the Annual Meeting as a Guest

Please note guests will not have the ability to ask questions or vote during the meeting.

How many shares must be present to hold the annual meeting?

A quorum is required to transact business at the Annual Meeting. We will have a quorum at the Annual Meeting if the holders of more than 50% of the outstanding shares of Common Stock entitled to vote are present or represented by proxy at the meeting.

How are votes counted?

For all matters being submitted to a vote of stockholders, only proxies and ballots that indicate votes “FOR,” “AGAINST” or “ABSTAIN” on the proposals, or that provide the designated proxies with the right to vote in their judgment and discretion on the proposals are counted to determine the number of shares present and entitled to vote.

A New York Stock Exchange (“NYSE”) member broker that holds shares for the account of a customer has the authority to vote on certain limited matters without instructions from the customer. Of the matters being submitted to a vote of stockholders at the Annual Meeting, NYSE rules permit member brokers to vote without instructions only on the proposal to ratify the appointment of our independent auditor. On each of the other matters, NYSE members may not vote without customer instruction. A notation by a broker on a returned proxy that it is not permitted to vote on particular matters due to the NYSE rules is referred to as a “broker non-vote.”

How will my shares be voted at the Annual Meeting?

The individuals named as proxies on the proxy card will vote your shares in accordance with your instructions. Please review the voting instructions and read the entire text of the proposals and the positions of the Board of Directors in this Proxy Statement prior to marking your vote. If your proxy card is signed and returned without specifying a vote or an abstention on a proposal, it will be voted according to the recommendation of the Board of Directors on that proposal. That recommendation is shown for each proposal on the proxy card.

What are the Board of Directors’ voting recommendations?

For the reasons set forth in more detail later in this Proxy Statement, our Board of Directors recommends a vote:

- **FOR** the Board’s nominees for election as directors;
- **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as Interpublic’s independent registered public accounting firm for 2023;
- **FOR** the advisory vote to approve named executive officer compensation;
- **FOR** an ANNUAL advisory vote to approve named executive officer compensation;
- **AGAINST** the stockholder proposal.

What vote is required to approve each proposal?

The table below shows the vote required to approve the matters being submitted to a vote of stockholders at the Annual Meeting:

Proposals	Vote Required	Do abstentions count as shares present and entitled to vote?	Do broker non-votes count as shares present and entitled to vote?
Election of each Director	Majority of shares present and entitled to vote	Yes	No
Ratification of the Appointment of Pricewaterhouse-Coopers LLP*	Majority of shares present and entitled to vote	Yes	N/A
Advisory Vote to Approve Named Executive Officer Compensation*	Majority of shares present and entitled to vote	Yes	No
Advisory Vote on the Frequency of the Vote to Approve Named Executive Officer Compensation*	Majority of shares present and entitled to vote	Yes	No

How can I revoke my proxy or change my vote?

To view the list for such purposes during the 10 days prior to the meeting, please contact Robert Dobson at robert.dobson@interpublic.com.

Who is the proxy solicitor?

D.F. King & Co., Inc. has been retained by Interpublic to assist with the Annual Meeting, including the distribution of proxy materials and solicitation of votes, for a fee of \$20,000, plus reimbursement of expenses to be paid by Interpublic. In addition, our directors, officers or employees may solicit proxies for us in person or by telephone, facsimile, Internet or other electronic means for which they will not receive any compensation other than their regular compensation as directors, officers and employees. Banks, brokers and others holding stock for the account of their customers will be reimbursed by Interpublic for out-of-pocket expenses incurred in sending proxy materials to the beneficial owners of such shares.

How do I submit a proposal for inclusion in Interpublic's 2024 proxy materials?

Stockholder proposals submitted for inclusion in Interpublic's proxy statement and form of proxy for the 2024 Annual Meeting of Stockholders scheduled to be held on May 23, 2024, should be (i) addressed to: The Interpublic Group of Companies, Inc., 909 Third Avenue, New York, NY 10022, Attention: SVP & Secretary, and must be received by Interpublic by December 15, 2023 or (ii) sent by email to Robert.dobson@interpublic.com, in order to be considered for inclusion. How do I submit an item of business for consideration at the 2024 Annual Meeting?

A stockholder wishing to introduce an item of business (including the nomination of any person for election as a director of Interpublic) for consideration by stockholders at the 2024 Annual Meeting, other than a stockholder proposal included in the proxy statement as described in response to the preceding question, must comply with Section 2.13(a)(2) of Interpublic's Bylaws, which requires notice to Interpublic no later than February 25, 2024, and no earlier than January 26, 2024, accompanied by the information required by Section 2.13(a)(2).

ITEM 1. ELECTION OF DIRECTORS

At the Annual Meeting, nine directors are to be elected, each for a one-year term. The directors so elected will hold office until the Annual Meeting of Stockholders to be held in 2024 and until his or her successor is duly elected and qualified or until his or her earlier death, resignation or removal.

Unless authority is withheld by the stockholder, it is the intention of persons named by Interpublic as proxies on the proxy card to vote “**for**” the nominees identified in this Proxy Statement or, in the event that any of the nominees is unable to serve (an event not now anticipated), to vote “**for**” the balance of the nominees and “**for**” the replacement nominee, if any, designated by the Board of Directors. If no replacement is nominated, the size of the Board of Directors will be reduced.

Each of the nominees is currently a director, and each has been recommended for re-election to the Board of Directors by the Corporate Governance and Social Responsibility Committee (also referred to as the “Governance and Social Responsibility Committee”) and approved and nominated for re-election by the Board of Directors.

The Board of Directors recommends that stockholders vote “FOR” each of the nominees.

CORPORATE GOVERNANCE PRINCIPLES AND PRACTICES

Director Independence

In accordance with NYSE listing standards (the “NYSE Listing Standards”), the Board annually evaluates the independence of each member of the Board of Directors under the independence standards set forth in Interpublic’s Corporate Governance Guidelines, and under the NYSE Listing Standards.

Interpublic has nine directors, one of whom, Philippe Krakowsky, is an employee of Interpublic and, eight of whom are not employees of Interpublic or its subsidiaries (referred to in this Proxy Statement as “Non-Management Directors”). At their meetings held in February of this year, the Governance and Social Responsibility Committee and the full Board determined that each of the Non-Management Directors is an independent director under Interpublic’s Corporate Governance Guidelines and the NYSE Listing Standards.

Meeting of Independent Directors

The NYSE Listing Standards require that if the group of Non-Management Directors includes one or more directors who are not independent, then at least once annually, the Non-Management Directors should hold an executive session attended by only independent directors. Although not required under the NYSE Listing Standards (because all of the Non-Management Directors are independent), the Board nevertheless held several executive sessions of its independent directors during 2022, with Mr. Thomas serving as the chair of the sessions.

Director Selection Process

The Governance and Social Responsibility Committee is charged with the responsibilities described below under the heading “Committees of the Board of Directors—Corporate Governance and Social Responsibility Committee.”

One of the responsibilities of the Governance and Social Responsibility Committee is to identify and recommend to the Board candidates for election as directors. The committee considers candidates suggested by its members, other directors, senior management and stockholders as necessary in anticipation of upcoming director elections or due to Board vacancies. The Governance and Social Responsibility Committee is given broad authorization to retain, at the expense of Interpublic, external advisers, including search firms, to identify candidates and to perform background reviews of potential candidates. The Governance and Social Responsibility Committee is expected to provide guidance to search firms it retains about the particular qualifications the Board is then seeking.

Each of the directors nominated for election at the Annual Meeting were evaluated and recommended to the Board for nomination by the Governance and Social Responsibility Committee, and nominated by the Board for election.

All director candidates, including those recommended by stockholders, are evaluated on the same basis. Candidates are considered in light of the entirety of their credentials. As part of the evaluation of individual candidates, the following factors are taken into consideration:

- Their business and professional achievements, knowledge, experience and background, particularly in light of the principal current and prospective businesses of Interpublic and the general strategic challenges facing Interpublic and its industry as a whole;
- Their integrity and independence of judgment;
- Their ability and willingness to devote the time necessary to fulfill Board duties;
- Their qualifications for membership on one or more of the committees of the Board;

- Their educational background;
- Their independence from management under NYSE Listing Standards and Interpublic's Corporate Governance Guidelines;
- The continued focus on maintaining a diverse and inclusive Board;
- The needs of the Board and Interpublic; and
- The Board's policies regarding the number of boards on which a director may sit, director tenure, retirement and succession, as set out in Interpublic's Corporate Governance Guidelines.

Board Diversity Policy

The Board is committed to having a membership that reflects diverse perspectives, skills, geographic and cultural backgrounds, and experiences in areas relevant to the Company's global operations. The Board has adopted a policy, included in the Corporate Governance Guidelines, formalizing its longstanding commitment to maintaining a gender and ethnically diverse Board.

In determining the needs of the Board and Interpublic, the Governance and Social Responsibility Committee considers the qualifications of sitting directors and periodically consults with the other members of the Board, the Chair and the CEO, (including as part of the Board's annual self-evaluation), as well as other members of senior management and, where appropriate, external advisers. All directors are expected to exemplify the highest standards of personal and professional integrity and to assume the responsibility of challenging management through their active and constructive participation in meetings of the Board and its various committees, as well as through less formal communications with management.

Director candidates, other than sitting directors, are interviewed by other directors, including the CEO, and other key management personnel, and the results of those interviews are considered by the Governance and Social Responsibility Committee in its deliberations. The Governance and Social Responsibility Committee also reviews sitting directors who are considered potential candidates for re-election, in light of the above considerations and their past contributions to the Board.

Stockholders wishing to recommend a director candidate to the Governance and Social Responsibility Committee for its consideration should write to the Corporate Governance and Social Responsibility Committee, in care of its Chair, at The Interpublic Group of Companies, Inc., 909 Third Avenue, New York, NY 10022. Any recommendations will be considered for the next annual election of directors in 2024. A recommendation should include the proposed candidate's name, biographical data and a description of his or her qualifications in light of the criteria listed above.

Succession Planning

Interpublic's Board of Directors is actively involved in talent management. Annually, the Board reviews and analyzes the alignment of Interpublic's strategy on personnel and succession with its overall business strategy. This includes a detailed discussion of Interpublic's global leadership bench, strength and succession plans with a focus on key positions at the senior officer level. In addition, the committees of the Board regularly discuss the talent pipeline for specific critical roles at Interpublic and each of its global agencies. One of the principals of our comprehensive succession planning effort is the cultivation of a workforce that is diverse and a climate of inclusion that promotes the development, advancement and well-being of our key talent.

The Board seeks opportunities to provide potential leaders with exposure and visibility to Board members through formal presentations and by periodically holding Board and committee meetings at key operating units. In addition, the Board is regularly updated on key talent indicators for the overall workforce, including work environment, diversity, recruiting and development programs.

Code of Conduct

Interpublic has adopted a set of ethical standards known as the Code of Conduct, which applies to all employees of Interpublic and its subsidiaries and affiliates. Interpublic's Corporate Governance Guidelines provide that members of the Board of Directors and officers (which includes Interpublic's Chief Executive Officer, Chief Financial Officer, Controller and Chief Accounting Officer and other persons performing similar functions) must comply with the Code of Conduct. In addition, the Corporate Governance Guidelines state that the Board will not waive any provision of the Code of Conduct for any director or executive officer. The Code of Conduct, including future amendments, may be viewed on Interpublic's website at <http://www.interpublic.com> or a copy may be obtained free of charge by writing to The Interpublic Group of Companies, Inc., 909 Third Avenue, New York, NY 10022, Attention: SVP & Secretary.

BOARD LEADERSHIP STRUCTURE

Our Corporate Governance Guidelines permit the roles of Chair of the Board and Chief Executive Officer to be filled by the same or different individuals, based on our needs, best practices and the interests of our stockholders. This allows the Board flexibility to determine whether the two roles should be combined or separated based upon our needs and the Board's assessment of its leadership from time to time, believing that the best leadership structure may vary as circumstances warrant. After careful consideration, the Board made a determination that an independent Chair would be the most appropriate Board leadership structure at this time. David Thomas has been appointed by the Board to serve as Non-executive Chair, effective January 1, 2022.

Mr. Thomas, who is independent in accordance with SEC and NYSE rules, presides at meetings of our stockholders and directors and leads the Board in fulfilling its responsibilities. The Board benefits from Mr. Thomas' extensive and diversified leadership, and financial management experience. He also has strong public company board experience and has intimate familiarity with our history and business, having served as the Board's Presiding Director since 2013 and serving on the Board since 2004.

The Board believes that the corporate governance measures it has in place ensure that strong, independent directors effectively oversee our management and provide vigorous oversight of our key issues relating to strategy, risk and integrity.

The Board believes the current structure provides an appropriate degree of oversight and allows Mr. Krakowsky, our Chief Executive Officer, to focus on the operational and strategic objectives of the Company. This structure also enhances the information flow between management and the Board, which are essential to effective governance, and ensures the continuity of efficient and effective leadership, which is in the best interests of Interpublic and our stockholders.

Non-Executive Chair

The independent, non-executive Chair of the Board helps to coordinate communications between the Board and management of Interpublic. In this role, the non-executive Chair convenes and chairs meetings and executive sessions of the Non-Management Directors, coordinates feedback to the Chief Executive Officer on behalf of the Non-Management Directors on business issues and management, coordinates and develops with the Chief Executive Officer the agendas and presentations for meetings of the Board and, as appropriate, is available for direct communication with stockholders who request such a communication.

Board Risk Oversight

Our Board actively oversees Interpublic’s risk management activities both directly and through its committees. The Board considers various risk topics throughout the year, including risks associated with our strategic plan, business and operations, information technology (including cybersecurity), acquisition and capital allocation program, and capital structure and liquidity, among many others. The Board also oversees the Company’s risk assessment and risk management policies and performs an annual review and assessment of the primary operational and regulatory risks facing Interpublic, their relative magnitude and management’s plan for mitigating these risks. Reports from each committee chairperson are given to the Board at each regular Board meeting regarding the applicable committee’s considerations and actions, as well as reports from senior leaders across the organization who are responsible for oversight of particular risks within the Company, as necessary. Additionally, the Board periodically visits certain of our principal operating units in and outside the U.S., which provides the directors with an opportunity to observe the Company’s operations and to interact with employees outside of the boardroom.

One of the primary responsibilities of our Board is to oversee Interpublic’s cybersecurity and information security risk management and controls. Throughout the year, our Chief Information Officer provides the Board and the Audit Committee with reports addressing a broad range of topics, including updates on policies and practices, industry trends, and ongoing efforts to prevent, detect, and respond to internal and external critical threats. Our Chief Information Officer works closely with key stakeholders, including internal committees such as the information security steering committee, peer institutions, and

industry groups, in order to manage cybersecurity and information security risk. Interpublic maintains, and we require our third-party service providers to maintain, security controls designed to ensure the confidentiality, integrity, and availability of our systems and the confidential and sensitive information we maintain and process. Additionally, Interpublic's employees are required to complete trainings that cover security and privacy best practices and company policies.

Committee Risk Oversight

Each of the Board's committees assists the Board in fulfilling its role by overseeing the risks in areas over which they have responsibility.

- **Audit Committee** – The Audit Committee oversees Interpublic's financial risks related to financial reporting, internal controls, internal and external auditing matters, legal and compliance risks and major privacy, security and business continuity risks. The Audit Committee also manages the design and operation of Interpublic's enterprise risk management program and, in conjunction with the Board, oversees its cybersecurity framework, including the strategy, policies and practices implemented by the organization to appropriately mitigate such risks. Such oversight includes discussions with management and internal auditors on the magnitude and steps taken to address and mitigate any such risks. The Audit Committee also has oversight of risks related to Interpublic's compliance with its Code of Conduct, including the receipt of anonymous complaints or concerns from employees on accounting, internal accounting controls and auditing matters. Additionally, the Audit Committee administers, and monitors risks associated with Interpublic's Related Person Transaction Policy (as discussed below).
- **Compensation and Leadership Talent Committee** – The Compensation Committee evaluates and manages risks relating to Interpublic's incentive and equity-based compensation plans and arrangements, as well as Interpublic's overall compensation philosophy and practices. Together with the Board, the Compensation Committee also oversees risks related to executive succession planning and leadership development.
- **The Corporate Governance and Social Responsibility Committee** – The Corporate Governance and Social Responsibility Committee manages and oversees potential risks associated with corporate governance, including board and committee effectiveness and composition, director independence and board succession. The Committee oversees Interpublic's sustainability and corporate social responsibility initiatives and, in conjunction with the Board, has oversight of our diversity and inclusion programs.

Management Risk Oversight

Interpublic's senior management is responsible for assessing and managing the Company's various exposures to risk on a day-to-day basis, including the identification of risks through a robust enterprise risk management framework and the creation of appropriate risk management programs and policies to address such risks. Our Executive Risk Committee which is comprised of senior leaders across the organization has primary responsibility for overseeing the risk framework, and identifying our overall risk appetite, and the material risks facing our company. Management regularly reports to the Audit Committee on a variety of significant risks facing the Company. To learn more about these risks, you can review Item 1A. Risk Factors in the 2022 Annual Report on Form 10-K. The risks described in the Form 10-K are not the only risks facing the Company. Additional risks and uncertainties also may materially adversely affect the company's business, financial condition, or results of operations in future periods.

TRANSACTIONS WITH RELATED PERSONS

Interpublic's Code of Conduct requires directors and employees to avoid activities that could conflict with the interests of Interpublic, except for transactions that are disclosed and approved in advance. Interpublic has adopted a Related Person Transaction Policy under which approval is required for any transaction, agreement or relationship between Interpublic or any of its consolidated subsidiaries and a Related Person (a "Related Person Transaction").

Under the Related Person Transaction Policy, a "Related Person" is defined as any (i) director, nominee for election as a director, an executive officer or any of their "immediate family members" (as defined by the Related Person Transaction Policy); (ii) any entity, including not-for-profit and charitable organizations, controlled by or in which any of the foregoing persons have a substantial beneficial ownership interest; or (iii) any person who is known to be, at the time of the transaction, the beneficial owner of more than 5% of the voting securities of Interpublic or an immediate family member of such person.

Under the policy, Related Person Transactions do not include any employee benefit plan, program, agreement or arrangement that has been approved by the Compensation Committee or recommended by the Compensation Committee for approval by the Board.

To facilitate compliance with the policy, the Code of Conduct requires that employees, including directors and executive officers, report circumstances that may create or appear to create a conflict between the personal interests of the individual and the interests of Interpublic, regardless of the amount involved, to Interpublic's Chief Risk Officer using Interpublic's Compliance Report Form. Each director and executive officer annually confirms to the Company his or her compliance with the Related Person Transaction Policy as part of the preparation of Interpublic's Annual Report on Form 10-K and its annual proxy statement. Director nominees and persons promoted to executive officer positions must also confirm such compliance at the time of their nomination or promotion. Management also reviews its records and makes additional inquiries of management personnel and, as appropriate, third parties and other sources of information for the purpose of identifying Related Person Transactions, including Related Person Transactions involving beneficial owners of more than 5% of Interpublic's voting securities.

The Audit Committee reviews transactions subject to the Related Person Transaction Policy and determines whether to approve or disapprove those transactions, by examining whether or not the transactions are fair, reasonable and within Interpublic policy. The Audit Committee makes its determination by taking into account all relevant factors and any controls that may be implemented to protect the interests of Interpublic and its stockholders. Among the factors that the Audit Committee takes into account in determining whether a transaction is fair and reasonable, as applicable, are the following:

- The benefits of the transaction to Interpublic;
- The terms of the transaction and whether they are arm's-length and in the ordinary course of Interpublic's business;
- The direct or indirect nature of the Related Person's interest in the transaction;
- The size and expected term of the transaction; and
- Other facts and circumstances that bear on the materiality of the Related Person Transaction under applicable law and listing standards.

No director may participate in any consideration or approval of a Related Person Transaction with respect to which they or any of their immediate family members is the Related Person. Related Person Transactions not approved or ratified as required by the Related Person Transaction Policy are subject to termination by Interpublic. If the transaction has been completed, the Audit Committee will consider if rescission of the transaction is appropriate and whether disciplinary action is warranted.

Related Person Transactions

Since January 1, 2022, there have been no transactions involving a Related Person identified in the responses to the annual questionnaire sent to each director and executive officer of Interpublic or that otherwise are known to the Audit Committee or Interpublic.

DIRECTOR SHARE OWNERSHIP GUIDELINES

Each Non-Management Director is expected, within 5 years of joining the Board, to accumulate a minimum share ownership in Interpublic stock equal to five times the annual cash retainer paid to Non-Management Directors. Outstanding shares of restricted stock are included in a director's share ownership. All Non-Management Directors standing for re-election, as of December 31, 2022, have met or exceeded these guidelines. The Company believes that the equity component of director compensation serves to further align the Non-Management Directors with the interests of our stockholders. For information about share ownership of our Non-Management Directors, see "Non-Management Director Compensation" on page 25 and "Share Ownership of Management" on page 69. For a discussion of the share ownership guidelines applicable to Interpublic's executives, see "Compensation Discussion & Analysis — Share Ownership Guidelines" on page 46.

HEDGING/PLEDGING PROHIBITIONS

Directors and only executive employees subject to the share ownership guidelines are prohibited from engaging in any transaction involving:

- a short sale or derivative that is designed to hedge against the market risk associated with ownership of IPG shares; and
- the pledging of IPG shares that he or she owns as security or collateral for any obligation, including, but not limited to, holding shares in a margin account.

OUR VALUES

This section describes how IPG embraces corporate values centered around our ESG Strategic Priorities. These priorities are covered in-depth in our ESG Report, which is found on our website, and include:

- Diversity, Equity and Inclusion
- Climate Action
- Human Capital
- Data Ethics and Privacy
- Responsible Media and Content

DIVERSITY, EQUITY AND INCLUSION ARE ESSENTIAL TO CREATING LONG TERM VALUE

Diversity, equity and inclusion are essential priorities for IPG, and key in how we define culture. We strive to ensure that our workplace, workforce, and work prioritize these values. Cultivating an inclusive environment for all, that centers equity and fosters diversity, allows us to be our best. It is critical that our talent represents our global communities and consumers, that they are open to different perspectives and have support for well-being and growth. An inclusive environment is essential to help clients make authentic and responsible connections with their customers. IPG is committed to a people-first philosophy for our colleagues, clients, consumers, and communities.

IPG has remained steadfast in our commitment to fostering a community of wellbeing and flexibility. In 2022, we continued to face social inequalities, climate crises, global health challenges and a rapidly changing economy. As the world has entered a new era of working, IPG focused on leveraging the tenets of our inclusive culture to maintain employee connection, prioritizing work-life integration, and closely monitoring job satisfaction. In 2022, these commitments allowed us to navigate the rapidly changing talent market and differentiate ourselves as a truly people-first organization.

LEADERSHIP COMMITMENT AND ACCOUNTABILITY ON DIVERSITY

The Role of Leadership

IPG has taken the lead as an advertising holding company in pushing for a more inclusive and diverse industry. IPG was the first in our industry to appoint a Chief Diversity Officer and the first to release race and gender composition of U.S. employees. We value accountability which includes transparency, leadership engagement and the resources required to advance this work. This long-standing commitment continues as we appointed a new Chief Diversity & Social Impact Officer in 2022. This redefined role, which reports directly to IPG's CEO, is a core member of the executive leadership team, is responsible for building a global vision and strategy that will lead IPG to building an even more diverse, inclusive and equitable workforce and workplace.

The IPG Board of Directors remains engaged with and committed to the progress on diversity metrics and performance against goals each year at the holding company and our agencies. The Chief Diversity Officer regularly presents status updates to the Board, as well as to other members of management. The directors also seek diverse candidates of varied experiences, industries, and backgrounds to join the Board. Four of the Board's current members identify as women and one member of the Board is African American. Agencies have high priority objectives tied to performance, diversity, talent-related practices and inclusive cultures. Incentive compensation is tied to quantitative metrics and qualitative assessments of their initiatives. Agencies across the holding company have invested in building out culture and diversity and inclusion teams that produce annual strategies and goals tied to advancing this work; these goals are regularly reviewed by CEOs and leadership teams.

Inclusive Sourcing and Business Partner Diversity - Business diversity is a strategic corporate initiative at IPG and a core element of our overall commitment to diversity. IPG is committed to working with suppliers and partners who reflect the diversity of our world, our stakeholders and our clients' customers. A diverse supplier base gives IPG a competitive advantage and helps to improve lives in our communities and around the world. To that end, we actively seek out and provide opportunities for companies owned by women, racial and ethnic minorities, veterans, LGBTQ+ people and people with disabilities.

Our progress in doing business with more underrepresented and economically disadvantaged communities is an important metric. In 2021, IPG Mediabrands and MAGNA launched a first-of-its-kind Equity Upfront initiative to raise visibility for Black-owned media businesses. IPG partners with leading certification organizations that represent those communities, and several of our agencies are involved with Free the Work, a not-for-profit organization dedicated to providing opportunities for women and people of color to direct and support production for advertising campaigns.

INITIATIVES FOR INCLUSIVE LEARNING, COLLABORATION AND ACTION

IPG and our agencies provide many programs in support of diversity, equity and inclusion. Through events, training, curated and bespoke content, research and tools, IPG fosters awareness and action on an array of critical issues that are vital for the recruitment, retention, advancement, well-being and belonging of people who are part of under-represented groups. IPG and our agencies offer many programs and resources. Examples of the topics IPG addresses include:

- Mental health and physical well-being, with recognition of disparities affecting women, people of color and other underrepresented groups
- Culturally sensitive and inclusive marketing and advertising
- Inclusive behaviors and meeting practices
- Support for employees or their family members with disabilities
- Cultural and historical explorations
- Allyship
- Managing, mentoring and sponsoring diverse talent

Business Resource Groups - IPG's business resource groups provide support and networking opportunities for our employees. In 2022, we saw the emergence of even more resource groups across our agencies globally that support local employees and regions. These groups receive funding support for critical programs from the corporate diversity, equity and inclusion team and our agencies. IPG's current roster of organizations, which serve all agencies, includes:

- Asian Heritage Group
- Black Employee Network
- PLUS: IPG's LGBTQIA+ Group
- SOMOS: Hispanic/Latino Heritage Group
- Women's Leadership Network (WLN)

VALUES-DRIVEN POLICIES AND PRINCIPLES

Anti-Harassment and Equal Employment Policy ensures a fair, ethical and respectful work environment that provides equal employment opportunities to all employees and applicants for employment without regard to race, color, religion, creed, national origin, gender, sexual orientation, age, gender identity, marital status, citizenship, disability, genetic information or veteran status or any other basis prohibited by applicable federal, state or local law.

IPG's **Board Diversity Policy** formalizes our longstanding commitment to maintaining a gender and ethnically inclusive board that reflects diverse perspectives, skills, geographic and cultural backgrounds, and experiences in areas relevant to our global operations. 45 percent of IPG's board members are women.

Code of Conduct - IPG's Code of Conduct sets expectations for a work environment that embodies respect and dignity for all employees globally. The Code makes clear our policies that prohibit discrimination based on gender identity, race, ethnicity, nationality, religion, age, sexual orientation, disability and other dimensions of diversity. Our Code also sets out our zero tolerance policies against harassment of all types including sexual and racial harassment. Annual training reinforces these expectations, and we have a very high level of participation in this training across the company.

Domestic and International Travel Policies are updated to encourage more sustainable business travel.

Environmental Sustainability Policy is an update to our previous policy and focuses on our commitment to the highest environmental standards and fulfillment of our responsibility on climate action, protecting natural resources, limiting pollution and being transparent about our progress. The Policy establishes best practices for IPG and individual employees to reduce our impact on the environment.

Employee and Family Leave Policy offers a minimum of twelve weeks of leave at 100% pay for all employees globally, including primary and secondary caregivers. This can be applied to parental leave as well as to care for a spouse or parent. Some of our agencies and IPG offer unlimited PTO.

Human Rights Policy codifies IPG's commitment to the highest ethical standards and fulfillment of our social responsibilities, specifically with regards to adhering to a set of values centered around respect for every individual and appreciation for universal principles of human rights.

IPG's Physical & Environmental Security Policy covers the handling of sensitive data, and we also maintain policies and procedures to comply with privacy and data security laws and regulations, such as the General Data Protection Regulations (GDPR) of the European Union and UK, the California Consumer Privacy Act (CCPA), and other privacy and data protection regulations across the markets in which we operate

Media Responsibility Index (MRI), created by IPG Mediabrands and MAGNA, promotes industry standards around brand safety and media. This year's MRI 4.0 assessed 150+ partners from a variety of formats across 15 countries and established four new Environmental, Social and Governance (ESG) priorities for partner accountability.

Responsible Media and Content Principles, new in 2022, and based on the understanding that our companies are responsible for creating some of the world's most recognizable marketing campaigns, and we expect such work to support the long-term well-being of our communities and our planet.

ESG REPORTING

IPG publishes progress on all our ESG strategic priorities in one, comprehensive ESG report. This report includes the measurement of our emissions and other environmental impacts using GHG Protocol Corporate Standards at all of our buildings around the world. We track energy use and greenhouse gas emissions and publish our data via the Global Reporting Initiative (GRI). IPG responds annually to the CDP and was the first U.S.-based holding company to become a signatory of the United Nations Global Compact. In 2020, IPG became the first company in our industry, globally, to report within the SASB framework. And, in 2021, we became the first U.S.-based advertising holding company to disclose in accordance with TCFD (Task Force on Climate-related Financial Disclosures) recommendations, and the first US-based advertising holding company to receive limited external assurance on certain ESG data, including selected GHG emissions and selected EEO-1 data. It was also our first report to combine various reporting frameworks into one comprehensive disclosure, including the GRI Standards, SASB Standards, TCFD recommendations, UN Global Compact and UN Sustainable Development Goals.

CLIMATE TARGETS

IPG is committed to reaching net-zero carbon across our operations by 2040 and to sourcing 100% renewable electricity by 2030. To reach these goals, we have set interim targets to reduce our scopes 1 and 2 emissions by 50%, and our scope 3 emissions by 30%, by 2030. We have submitted these targets for validation by the Science Based Targets initiative, the best-practice framework for validating emissions reduction targets, and expect to receive validation within the year.

SUPPORTING UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

IPG is an active supporter of the UN Sustainable Development Goals (SDGs). These 17 global goals are part of the 2030 Agenda for Sustainable Development. IPG has specifically adopted SDG #6: access to water and sanitation for all. As part of this commitment, IPG has partnered with charity: water on several initiatives that bring water to those around the world, with the understanding that when a community gains access to water, many things begin to change for the better, including greater access to education for women and girls as well as better health in communities overall. Our ESG Report maps our work to the SDGs.

As part of these responsibilities, the Audit Committee reviews the independence and performance of the independent accounting firm in connection with the Audit Committee's determination of whether to engage another auditor as Interpublic's independent accounting firm, and is involved in the selection of the independent accounting firm's lead engagement partner. Included in this assessment is the Audit Committee's review of the accounting firm's independence and integrity, its expertise, performance and qualifications, as well as the quality of the firm's personnel and communications.

The Audit Committee and the Board believe that it is in the best interests of Interpublic and our stockholders to retain PricewaterhouseCoopers to serve as our independent registered public accounting firm. In light of this, the Audit Committee has appointed PricewaterhouseCoopers LLP ("PricewaterhouseCoopers") as Interpublic's independent registered public accounting firm for 2023. The Board of Directors recommends a vote "FOR" the ratification of the appointment of PricewaterhouseCoopers as Interpublic's independent registered public accounting firm for 2023.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board. The Board has determined that each member of the Committee is independent and financially literate under the listing standards of the NYSE and satisfies the financial expertise requirements of the NYSE. In accordance with its written charter, the primary function of the Audit Committee is to assist the Board of Directors in its oversight of Interpublic’s financial reporting process.

ITEM 3. ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

In accordance with a federal securities law requirement, enacted as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) and related SEC rules, we are submitting to an advisory vote of stockholders the compensation of our named executive officers as disclosed in the Compensation Discussion & Analysis, the compensation tables, and the narrative discussion set forth on pages 31 to 66 of this Proxy Statement. In addition to complying with this legal requirement, the Board recognizes that providing stockholders with an advisory vote on named executive officer compensation may produce useful information on investor sentiment with regard to the Company’s executive compensation programs.

At our annual meeting of stockholders held in May 2022, a substantial majority of our stockholders voted on an advisory basis to approve the compensation received by our named executive officers in calendar year-end 2021. The Compensation Committee believes this reflects stockholders’ support of the Company’s approach to executive compensation.

As described in the Compensation Discussion & Analysis section of this Proxy Statement, our compensation programs and underlying principles, as developed and administered by the Compensation Committee, are designed to provide a competitive level of compensation necessary to attract, motivate and retain talented and experienced executives who are crucial to our long-term success. The compensation paid to our named executive officers reflects our commitment to pay for performance and includes long-term cash and equity awards that are designed to encourage management to achieve results to the mutual benefit of stockholders and management. Moreover, a significant portion of our named executive officers’ annual cash compensation is paid in the form of annual performance-based incentives, which are contingent on the Company’s achievement of pre-defined performance objectives.

We encourage you to carefully review the Compensation Discussion & Analysis beginning on page 31 of this Proxy Statement for additional details on Interpublic’s executive compensation, including Interpublic’s compensation philosophy and objectives, as well as the processes our Compensation Committee used to determine the structure and amounts of the compensation paid to our named executive officers in calendar year-end 2022. The Compensation Committee and the Board believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving its goals.

We are asking you to indicate your support for the compensation of our named executive officers as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we are asking you to vote, on an advisory basis, “For” the approval of the compensation of our named executive officers as described in this Proxy Statement, with the following non-binding and advisory resolution to be presented at the Annual Meeting:

“RESOLVED, that the compensation paid to the named executive officers of The Interpublic Group of Companies, Inc., as described in the Compensation Discussion & Analysis, compensation tables and narrative discussion set forth on pages 31 to 66 of this Proxy Statement, is hereby approved.”

While the results of this advisory vote are not binding, the Compensation Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote when making future compensation decisions pertaining to named executive officers.

The Board of Directors recommends that you vote “FOR” the approval, on an advisory basis, of the compensation of our named executive officers as disclosed in this Proxy Statement.

ITEM 4. ADVISORY VOTE TO APPROVE FREQUENCY OF ADVISORY VOTE ON NAMED EXECUTIVE OFFICER COMPENSATION

The federal securities laws as amended by the Dodd-Frank Act require us, at least once every six years, to hold an advisory stockholder vote on the frequency with which Interpublic should submit the compensation of the named executive officers to an advisory vote of stockholders. Stockholders may choose among three options: (1) an annual vote, (2) a vote every two years (biennial), or (3) a vote every three years (triennial). Starting with our annual meeting held in 2011, we have held annual votes on executive compensation.

The Board believes that an annual advisory vote on executive compensation is consistent with having a regular dialogue with our stockholders on corporate governance matters, including executive compensation. An annual stockholder vote allows our stockholders to provide us with direct and immediate feedback regarding the effectiveness of our compensation programs, and provides our Board and compensation committee with the opportunity to consider stockholder views as part of its regular compensation review.

Effect of Proposal

The Board values the opinions of Interpublic's stockholder as expressed through their votes and other communications. Although the resolution is non-binding, the Board will carefully consider the outcome of the frequency vote and other communications from stockholders when making future decisions regarding the frequency of the say-on-pay vote.

Vote Required

The option receiving the greatest number of votes will be considered the frequency recommended by the Company's stockholders.

The Board of Directors recommends that you vote "FOR" an ANNUAL advisory vote on the compensation of our named executive officers as disclosed in this Proxy Statement.

Our three-year organic growth stack stands at 14% — a level of performance that speaks to the strength and relevance of our offerings, particularly in services and sectors demanding emerging media, precision and accountability.

During the year, we continued to further evolve our offerings, investing in new capabilities and innovation to help our clients succeed in today's digital economy. This included acquiring a stake in The Famous Group, a company that creates mixed and augmented reality for sports and other live events, and acquiring RafterOne, a leading provider of ecommerce solutions on the Salesforce platform. We also formed a joint venture with LeBron James' The SpringHill Company, known for empowering creative and diverse voices for marketers.

IPG was once again ranked as the #1 most creatively effective holding company at the U.S. Effie Awards. On the ESG front, IPG was included on the Bloomberg Gender Equality Index (GEI) for the fourth consecutive year, and was recognized for the first time as a "Top-Rated ESG Performer" by Sustainalytics. The company was also included on the FTSE4Good Index for a fourth consecutive year, and Newsweek and Statista's "America's Most Responsible Companies" for the second year. Additionally, IPG was listed on Forbes and Statista's "America's Best Large Employers" and "World's Top Female Friendly Companies" lists.

Our 58,000 colleagues globally were the key contributors to our success, as they delivered on the complex integration of creative marketing services, technology and data management to marketers across industry sectors and around the world.

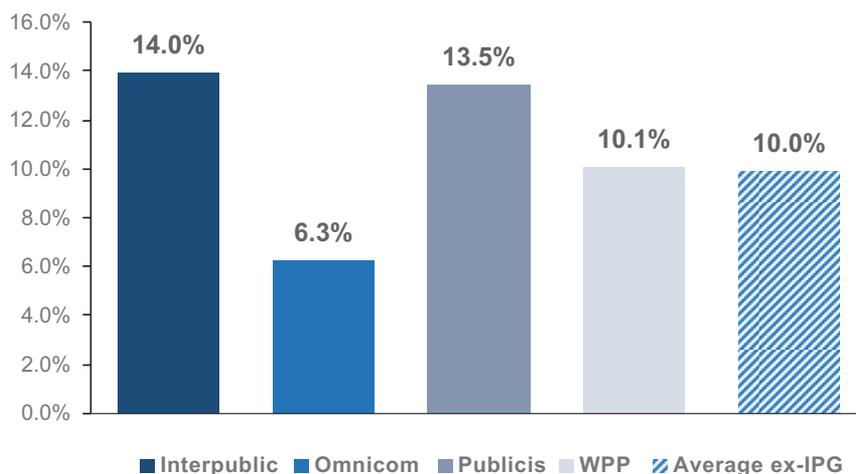

REVENUE AND MARGIN PERFORMANCE

For the full year, organic growth of revenue before billable expenses was 7.0%, and three-year organic growth was an industry-leading 14.0%. Our adjusted EBITA margin was 16.6% for the year. As noted above, we grew in every world region and broadly across client sectors.

Our revenue growth in the face of 2022's increasingly uncertain global economic picture demonstrates that we are successfully delivering addressable and accountable marketing programs that are increasingly integrated with our world-class creative storytelling capabilities, and helping clients on their business transformation journeys.

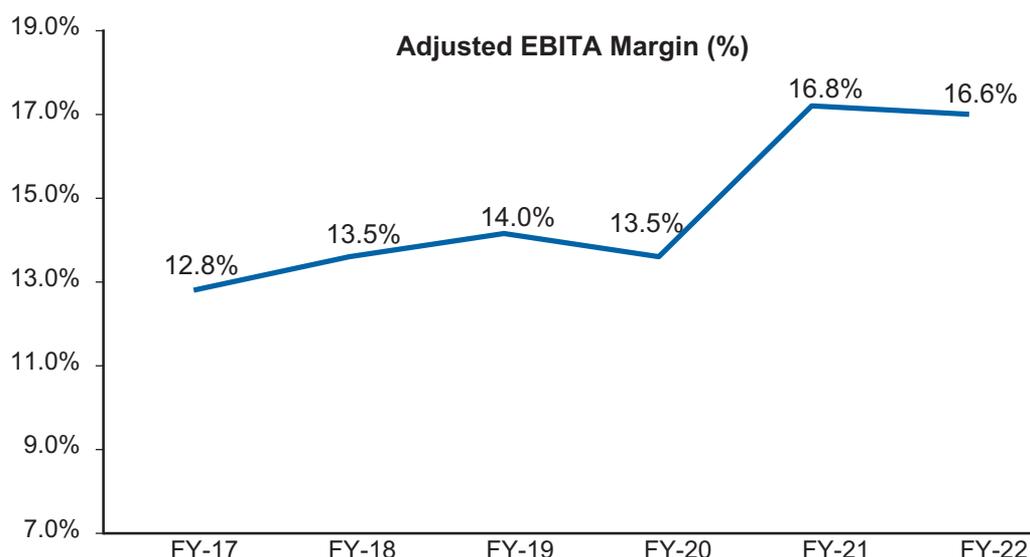

An important framework for understanding our recent performance is our three-year compound organic growth of revenue before billable expenses compared with our peers. We use 2019 as a baseline to create a view of our performance over 2020-2022, the three years in which disruption by the pandemic and recession has been followed by industry recovery.

3-Year Compound Organic Growth

Note: Peer data sourced from public filings. For IPG, WPP and Publicis, figures refer to organic growth of revenue before billable expenses; Omnicom reports organic growth of total revenue.

Since 2017, IPG has grown our adjusted EBITA by \$609 million, a full 63%, to \$1.57 billion in 2022. Over that same five-year period, we've expanded adjusted margin by 380 basis points, from 12.8% to 16.6% in 2022. We've driven compound organic growth of 24% over the five years, marking a significant period of success for our company and outperformance compared to our direct industry competitors.

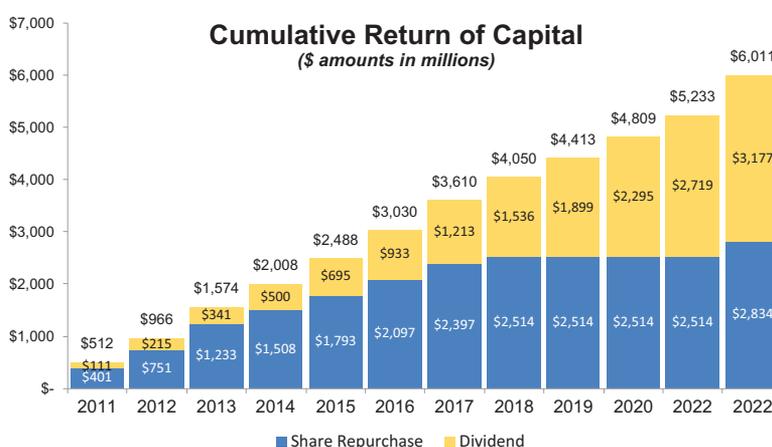

Note 1: Adjusted EBITA margin as a percentage of Revenue before billable expenses.

Note 2: Adjusted EBITA margins for the full year of 2019, 2020, 2021 and 2022 exclude restructuring charges of \$31.8 million, \$413.8 million, \$10.6 million and \$102.4 million, respectively. Adjusted EBITA margin for the full year of 2018 excludes Acxiom transaction cost of \$35.0 million. See Appendix A for reconciliation and other information about these non-GAAP financial measures.

RETURN OF CAPITAL TO SHAREHOLDERS AND TOTAL SHAREHOLDER RETURNS

Our capital return programs continue to be significant drivers of value. Given the continuing strength of our operating results, on February 9, 2023, we announced a decision to once again raise IPG's quarterly dividend by 7%, to \$0.31 per share, for the eleventh consecutive year of uninterrupted higher dividends, which continued through the period of the pandemic.

We also reauthorized our share repurchase program, of up to \$350 million, while continuing our commitment to operating in a manner that will maintain and enhance our balance sheet and financial flexibility.

COMPENSATION PRACTICES & CORPORATE GOVERNANCE

Our executive compensation programs are aligned with best practices in corporate governance:

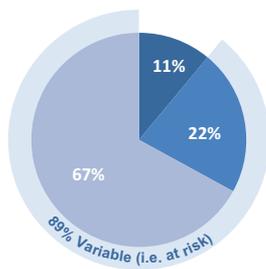

We align pay with performance. Our incentive plans remain closely tied to performance, making the ultimate payout from these incentives higher when performance is strong and, conversely, lower (or zero) when performance does not achieve well-defined objectives. This correlation between our performance and pay aligns our NEOs with the interests of our stockholders. The strong and positive alignment of our pay with operating results has been demonstrated by the vote "for" recommendation from stockholder advisory firms on all prior say-on-pay votes.

The incentives provided to our NEOs are predominantly earned based on the achievement of financial goals which are approved by the Compensation Committee of the Board of Directors each year. In addition, the ultimate value of all share-based long-term incentives is directly linked to the performance of our stock price.

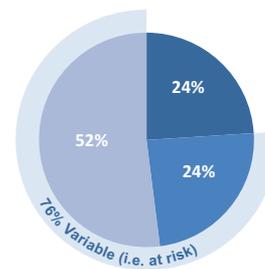

- Ongoing Target Compensation — For 2022, excluding benefits:
 - Approximately 89% of the total target compensation for Mr. Krakowsky was performance-based/at risk pay.
 - On average, approximately 76% of total target compensation for the other NEOs was performance-based/at risk pay.
- Annual and Long-term Incentives — For all of our NEOs:
 - 100% of the annual incentives are subject to the achievement of specific financial performance or strategic goals.
 - 67% of ongoing long-term incentive awards are subject to specific financial performance goals. The remaining one-third was awarded in time-based restricted stock units, which are aligned with stockholder interests since they increase in value only with improved stock price performance.

The following charts show the mix of target compensation: (Designer to update chart to illustrate % at risk)

2022 CEO Target Compensation Mix

2022 Other NEO Target Compensation Mix

■ Base Salary ■ Annual Incentives ■ Long-term Incentives

Our programs require significant executive share ownership. We require our NEOs to hold and maintain a significant level of share ownership to enhance the alignment of our NEOs’ interests with those of our stockholders. Our executive share ownership guidelines (“SOGs”), as well as each executive’s positioning against those guidelines, are reviewed annually with the Compensation Committee of the Board. The guidelines require that our CEO holds shares of our common stock with a value of at least 6x base salary, and require our other NEOs to hold shares with a value of at least 2x base salary. Executives who have not met their share ownership requirements in the time allotted are required to hold all net after-tax shares delivered upon the settlement of an equity award until such time as requirements are met. As of December 31, 2022, all NEOs had either met or exceeded such requirements.

Our incentive plans include appropriate safeguards.

- *No hedging or pledging of shares* — We prohibit our NEOs and other senior executives from engaging in any transaction involving a short sale or derivative that is designed to hedge against the risk associated with ownership of IPG shares and the pledging of IPG shares as collateral.
- *No stock option repricing* — The stockholder-approved 2019 Performance Incentive Plan (“2019 PIP”) prohibits the re-pricing of stock options without stockholder approval.
- *Clawback Policy* — We have an active “clawback” policy under which compensation may be recovered in the event of a significant restatement of our financial results due to fraud or misconduct.
- *Incentive Payout Maximums* — Annual and long-term incentive programs for our NEOs carry a maximum payout equal to 200% of target, which reduces potential risk-taking by our senior leadership team.

We limit guaranteed compensation. As indicated above, the majority of our NEOs’ compensation is performance based, with fixed base salary comprising a relatively small portion of total target compensation. In addition, we provide limited perquisites to our NEOs and do not provide any cash severance payments that exceed 2.99 times the sum of an NEO’s base salary and target annual incentive. Dividends cannot be earned on unvested performance shares. Dividend equivalents on restricted stock units are accrued during the vesting period and paid only if the underlying restricted stock units vest.

Upon a change-in-control, our NEOs would receive their target annual incentive, provided, that if a change-in-control occurs during our first quarter, such payment would be prorated to reflect the portion of the annual performance period that had elapsed through the date of the change-in-control. In addition, we subject outstanding long-term incentive awards to “double-trigger vesting,” which requires an NEO to incur a qualifying termination of employment within 24 months of a change-in-control, at which time such awards would immediately vest.

We do not provide for any excise tax gross-up payments. Section 4999 of the Internal Revenue Code imposes excise taxes if payments made to executives due to a change-in-control exceed certain limits. If IPG were to experience a change-in-control, payments to our executives may be reduced to avoid adverse tax consequences to the executive, but under no circumstances would IPG provide additional payments to cover these excise taxes (i.e., tax gross-up payments).

Stockholder Support of Our Compensation Practices. We believe that our existing programs continue to incentivize the appropriate behaviors and results, ensure that our executive compensation programs are aligned with best practices in corporate governance and promote a strong relationship between pay and performance. We believe that these practices were again validated at our annual meeting of stockholders in May of 2022 when our 2021 executive compensation pay practices received the support of 89.5% of the votes cast.

DETAILS OF PRIMARY COMPENSATION ELEMENTS

1 BASE SALARY

Base salary is central to attracting and retaining executive talent. Although its prominence in the pay mix declines with seniority, base salary generally remains an important part of compensation discussions with executive talent in our sector and related industries. In considering whether to increase an NEO's base salary, the Compensation Committee takes into consideration market pay for comparable executives at peer companies as well as the individual's performance and experience. In 2022, all NEO base salaries remained unchanged from 2021.

2 ANNUAL INCENTIVES

PERFORMANCE METRICS

In 2022, as in past years, actual annual incentives earned could vary between 0% and 200% of the individual incentive target, depending on the Company's financial performance and individual performance versus established High Priority Objectives ("HPO's"). The chart below details the performance metrics and weightings applied to annual incentive awards for all NEOs in 2022:

FINANCIAL METRIC	DESCRIPTION	WEIGHTING
ORGANIC REVENUE GROWTH % ("OG")	<ul style="list-style-type: none"> - Measures ability to drive revenue growth from existing operations, exclusive of acquisitions, divestitures and currency effects - Reflects the competitiveness of our offerings and is defined as the percentage change in IPG's total revenue before billable expenses as compared to the prior year, excluding the impact of foreign currency rate fluctuations and the net effect of acquisitions and divestitures 	30%
OPERATING INCOME BEFORE INCENTIVES AND AMORTIZATION OF ACQUIRED INTANGIBLES MARGIN % ("OIBIA")	<ul style="list-style-type: none"> - Measures business efficiency and profitability and is defined as Operating Income before expenses related to the Annual and Long-term Incentive Plans and the amortization of acquired intangible assets, and before any restructuring and asset impairment charges divided by revenue before billable expenses 	50%
HIGH PRIORITY OBJECTIVES ("HPO")	<ul style="list-style-type: none"> - Consist of quantitative and/or qualitative objectives specific to the individual 	20%

At the beginning of 2022, the Compensation Committee of the Board of Directors set performance goals for each of the above financial metrics. The amount earned for the portion of the annual incentives tied to the business units' performance is calculated based on the relevant unit's financial performance against the same metrics (utilizing the same weightings) as shown in the "Performance Metrics" table above. For our NEOs, that calculation is based upon aggregate IPG Worldwide results.

The Compensation Committee of the Board of Directors also set HPOs for the CEO at the beginning of 2022, which consisted of both quantitative and qualitative objectives. HPOs and performance expectations for all other NEOs are established by the CEO. HPOs include goals tied to the overall strategic priorities of the Company and included goals related to diversity, equity and inclusion, talent management as well as cross-agency collaboration. For quantitative HPOs, specific, measurable objectives are established. For qualitative HPOs, specific accomplishments or expectations are defined and the Committee exercises judgment in assessing performance.

The CEO's performance, as it pertains to HPOs, is assessed after considering written assessments submitted to the Compensation Committee of the Board of Directors for both the Company as a whole and for the CEO himself. For all other NEOs, the CEO assesses performance against established HPOs and makes recommendations to the Committee. Based on the Committee's independent evaluation, the Committee will score performance on a scale which ranges from "Significantly Missed Expectations" to "Significantly Exceeded Expectations", and yields a payout between 0% and 200% of an NEO's target annual incentive.

3 2022 ONGOING LONG-TERM INCENTIVE TARGETS

In an effort to employ a consistent mix of long-term incentives throughout the organization and to ensure an appropriate balance between performance-based compensation and retention, our long-term incentive mix consists of one-third each of performance-based shares, performance-based cash and restricted stock units. In our view, placing two-thirds of the long-term incentive weighting in equity and two-thirds in performance-based vehicles appropriately aligns our participants with stockholder interests and supports our strong pay for performance philosophy.

The table below provides an overview of the LTI vehicles granted to the NEOs in 2022.

FINANCIAL METRIC	2022 ONGOING ANNUAL LONG-TERM INCENTIVE AWARD		
	PERFORMANCE SHARES	PERFORMANCE CASH	RESTRICTED STOCK UNITS
VESTING DATE	3rd Anniversary of Grant Date		
PERFORMANCE PERIOD	3 Years (2022 - 2024)	2 Years (2022 - 2023)	n.a.
FINANCIAL METRICS	Organic Revenue Growth % (30%) OIBIA Margin % (70%)		n.a.
PAYOUT RANGE	0% - 200%		# of shares earned is fixed at the time of grant; payout opportunity is based on the share price on the date of sale

Each of the LTI vehicles employed is designed with unique characteristics that, when viewed in total, balance the need to incentivize executive performance and promote the retention of the executives, as well as provide them with clarity as to how and when the awards can be earned.

PERFORMANCE SHARES

Performance Period and Vesting

In 2022, each NEO was granted a performance share award subject to a three-year performance period beginning on January 1, 2022 and ending on December 31, 2024. Any earned shares will vest on February 28, 2025, provided that the executive remains employed at that time. The Compensation Committee set three-year cumulative performance goals for IPG Corporate at the start of the performance period. The Company does not disclose these performance goals, because their disclosure would provide insights to competitors that could cause us competitive harm. At the time the performance goals were established at its February 2022 meeting, the Committee and IPG Management considered the performance goals difficult but achievable and appropriate for the current economic environment.

Performance Metrics

Performance share awards for all NEOs are tied solely to the achievement of cumulative Organic Revenue Growth (weighted 30%) and OIBIA Margin (weighted 70%) performance goals set for the Company as a whole.

Potential Payouts

Under the terms of the awards, the actual value, if any, that the executive would ultimately receive depends on the extent to which the cumulative performance objectives are achieved at the end of the performance period.

The number of performance shares that may be earned at the end of the performance period may vary from 0% to 200% of the target amount, based on multi-year performance against performance goals. Dividends or dividend equivalents do not accrue during the vesting period.

PERFORMANCE CASH

Performance Period and Vesting

In 2022, each NEO was awarded a performance cash award subject to a two-year performance period beginning on January 1, 2022 and ending on December 31, 2023, with a subsequent one-year additional service-based vesting period beginning on January 1, 2024 and ending on February 28, 2025. The Compensation Committee of the Board of Directors set two-year cumulative performance goals at the start of the performance period. The Company does not disclose these performance goals, because their disclosure would provide insights to competitors that could cause us competitive harm. At the time the performance goals were established at its February 2022 meeting, the Committee and management considered the target performance goals difficult but achievable, while appropriate for the current economic environment.

Performance Metrics

Performance cash awards awarded to all NEOs are tied solely to the achievement of cumulative OG (weighted 30%) and OIBIA Margin (weighted 70%) performance goals set for the Company as a whole.

Potential Payouts

Under the terms of the awards, the actual value, if any, that the executive would ultimately receive depends on the extent to which the cumulative performance objectives are achieved at the end of the performance period.

The amount of cash earned at the end of the performance period may vary from 0% to 200% of the target amount based on multi-year performance against performance goals. Any cash amount earned is subject to an additional one-year vesting period.

RESTRICTED STOCK UNITS

Restricted stock units serve primarily to increase retention and alignment with shareholders. All restricted stock unit awards vest on the third anniversary of the grant date. Dividend equivalents accrue on all outstanding stock units on a quarterly basis. The restricted stock units and the corresponding dividend equivalents are subject to forfeiture if the executive leaves IPG before the restrictions expire. The Company believes that these vesting provisions promote a long-term focus and provide a strong retention incentive.

In total, for 2022, the Compensation Committee approved the following long-term incentive award values for each NEO:

NAME	ONGOING TARGET LTI AWARD VALUE	PERFORMANCE SHARES ¹	PERFORMANCE CASH	RESTRICTED STOCK UNITS ¹
	(value of A+B+C)	1/3 of Total Target (A)	1/3 of Total Target (B)	1/3 of Total Target (C)
PHILIPPE KRAKOWSKY	\$9,000,000	\$3,000,000 (81,766 target shares)	\$3,000,000	\$3,000,000 (81,766 units)
ELLEN JOHNSON	\$2,750,000	\$916,667 (24,984 target shares)	\$916,666	\$916,667 (24,984 units)
ANDREW BONZANI	\$2,400,000	\$800,000 (21,804 target shares)	\$800,000	\$800,000 (21,804 units)
CHRISTOPHER CARROLL	\$850,000	\$283,334 (7,722 target shares)	\$283,333	\$283,333 (7,722 units)

1. The number of target shares/units was determined by dividing the target value by the average of the high and low stock price on the date of grant (\$36.69 on February 28, 2022) and rounding down to the nearest whole share. For performance awards, the grant-date fair values estimated in accordance with ASC 718 and reported in the Summary Compensation Table and the Grants of Plan-Based Awards Table are lower than the values reported in this table since dividends and dividend equivalents are not paid or accrued during the vesting period.
2. The grant date fair value is reported in the Summary Compensation Table and the Grants of Plan-Based Awards Table.

In 2022, as in prior years, ongoing long-term incentive awards were made on the final trading day of February. This allowed for synchronized communication of annual and long-term incentives with each executive, which enforces the concept of total compensation.

At its February 2022 meeting, the Committee determined and recommended to the full Board, the long-term incentive awards under the 2019 PIP for the CEO. The recommended amounts were defined as an expected dollar value, which were subsequently reviewed and approved by the full Board. At the same meeting, the CEO recommended long-term incentive targets for the other NEOs to the Committee. After review and consideration, the Committee approved the recommended awards.

The value of the ongoing long-term incentive awards are assessed by the Compensation Committee of the Board of Directors as part of the annual total compensation review for senior executives including the NEOs. This review includes an evaluation and assessment of pay history, absolute and relative performance, and expected future performance.

LONG-TERM INCENTIVE AWARDS WITH PERFORMANCE PERIODS ENDING IN 2022

On February 28, 2020, the Compensation Committee of the Board of Directors granted performance share awards under the 2019 Performance Incentive Plan. The performance cycle for the performance share awards was 3 years, beginning on January 1, 2020 and ending on December 31, 2022. On February 26, 2021, the Committee awarded performance cash awards under the 2019 PIP. The performance cycle for the performance cash awards was 2 years, beginning on January 1, 2021 and

ending on December 31, 2022. Both performance awards were tied to the cumulative OG (weighted 30%) and OIBIA Margin (weighted 70%) of IPG over the applicable performance period. The following table summarizes the target and actual performance for these awards:

2020-2022 and 2021-2022 Financial Performance versus Goals

FINANCIAL GOALS	Performance Shares 2020-2022		Performance Cash 2021-2022	
	TARGET	ACTUAL	TARGET	ACTUAL
OG %	3.5%	4.7%	3.5%	9.5%
OIBIA %	18.5%	20.2%	19.2%	21.5%

Based on these results, each of the NEOs earned a performance rating of 186.2% for their performance share awards and 200.0% of target for performance cash.

CHRISTOPHER CARROLL ¹	\$ 200,000	9,516	16,305	\$ 187,500	\$ 375,000

1. The 2020 Performance share and 2021 Performance cash awards issued to Mr. Carroll were based on a portion of IPG Corporate's performance and a portion of the performance tied to the network which he had oversight of during the performance period.

COMPENSATION PHILOSOPHY AND BASIC PRINCIPLES

OUR COMPENSATION PHILOSOPHY REMAINS TO PROVIDE A PERFORMANCE-BASED, MARKET-COMPETITIVE TOTAL COMPENSATION PROGRAM THAT:

- Supports our talent needs and business objectives
- Ties a significant portion of pay to sustaining and improving operational performance to enhance stockholder value
- Aligns with the interests of our stockholders

Our success continues to depend on our ability to attract, motivate and retain a diverse group of talented individuals throughout our organization – who will enable us to deliver the best and most contemporary marketing solutions to drive our clients' businesses. Talent is our most vital asset, which is why it represents our most significant expense. We must continue to ensure that the investments we make in our key people are disciplined and designed to drive results. To this end, our compensation programs are guided by the following basic principles:

- Our compensation programs will be balanced and are intended to treat all stakeholders equitably.
- Our compensation programs will include four major elements: base salary, performance-based annual cash incentives, performance and time-based long-term incentives, retirement and other benefit programs. It bears noting that, outside of the Charitable Matching Program, which is capped at \$20,000 annually per executive, company-paid perquisites are not offered to our most senior executives.
- Our fixed and performance-based compensation will target our competitive market for talent. Actual financial and individual performance may result in total earned compensation that is above or below target for certain individuals.
- Our competitive market for executive leadership includes companies with similar talent requirements; these companies are captured in our compensation peer group, which is reviewed annually prior to inclusion in the Proxy statement.

- All individual pay decisions will consider the competitive market data and will be based on an executive’s performance against financial and individual objectives, as well as contributions and skills identified in our annual Leadership Talent and Succession Plan Review (“Talent Review”) process. Exceptional performance against these measures may result in pay levels exceeding the competitive market for certain executives who deliver outstanding results.
- We will strive to design incentive programs that are aligned with our short and long-term operating goals and can be responsive to unique market requirements. Target performance levels will be set to be challenging but achievable while maximum performance levels will represent stretch goals. These incentive programs will provide market competitive levels for achievement of target results while also allowing for meaningful and appropriate rewards for superior results, encouraging executives to make carefully considered decisions to drive said superior performance, while discouraging excessive or unjustified risks.
- Senior Executives and Non-Management Directors are required to meet stock ownership guidelines.
- If warranted, clawback policies would be vigorously enforced.
- The communication and implementation of our compensation programs will be clear, specific and transparent.

ROLE OF EXECUTIVE OFFICERS AND MANAGEMENT IN 2022 COMPENSATION DECISIONS

For 2022, the Compensation Committee of the Board of Directors made all pay decisions related to the NEOs with input from the CEO. The CEO did not participate in the Compensation Committee’s deliberations or decisions with regard to his own compensation.

At the Compensation Committee’s request, the CEO presented individual pay recommendations to the Committee for the CFO, the other NEOs and other executives whose compensation arrangements are subject to the Committee’s review. The pay recommendations for such executives were informed by assessments of individual contributions to the Company’s financial performance, achievement of specified performance or strategic objectives, results of our annual Talent Review process, as well as competitive pay data provided by the Committee’s independent outside compensation consultant and other factors. The Committee then considered these recommendations with the assistance of their independent consultant.

In 2022, the CEO, the EVP and General Counsel, SVP, Assistant General Counsel, the SVP of Global Executive Compensation & Benefits and the VP of Global Executive Compensation all attended Compensation Committee meetings, but were not present for the Committee’s executive sessions, or for any discussion regarding their own compensation. Other senior executives, as appropriate to the topic, were asked to attend Compensation Committee meetings to provide relevant information or advice, but they also did not attend executive sessions, or any discussion of their own compensation.

ROLE OF INDEPENDENT CONSULTANT

In 2022, the Compensation Committee again retained the services of an external independent executive compensation consultant, Meridian Compensation Partners, LLC (“Meridian”), to work for the Committee in its review of executive and Non-Management Director compensation practices including the competitiveness of pay levels, executive compensation design, market trends, and technical considerations.

The Compensation Committee has the final authority to hire and terminate the consultant, and the Committee evaluates the consultant’s performance annually. In accordance with regulatory requirements, the Committee annually assesses the

independence of Meridian and, in 2022, the Committee concluded that no conflict of interest exists that would prevent Meridian from independently advising the Committee. Meridian does not provide any consulting advice to IPG, or any of its subsidiaries, outside the scope of executive compensation and will not do so without the prior consent of the Compensation Committee chairperson. Meridian often meets with the Committee chairperson and the other members of the Committee outside the presence of management.

ROLE OF THE COMPENSATION AND LEADERSHIP TALENT COMMITTEE

The Compensation Committee is responsible for establishing, implementing and continually monitoring adherence to the Company's compensation philosophy, as well as approving compensation awarded to senior corporate and operating executives, including the NEOs and other key Agency direct reports of the CEO. Among its duties, in 2022, the Committee was responsible for formulating the compensation recommendations for our CEO and approving all compensation recommendations for select senior executives including the other NEOs. Following review and discussion, the Committee submitted its recommendations for the compensation of the CEO to full Board of Non-Management Directors for approval. The Compensation Committee is supported in its work by the current CEO, the Global Executive Compensation team and an independent executive compensation consultant as described above.

The Compensation Committee charter, which sets out its duties and responsibilities and addresses other matters, is reviewed annually and can be found on our website at www.interpublic.com.

ROLE OF STOCKHOLDER SAY-ON-PAY VOTES

We provide our stockholders with the opportunity to cast an annual advisory vote on executive compensation (a "say-on-pay proposal"). At our 2022 annual meeting of stockholders, a substantial majority of the votes (89.5%) cast at that meeting voted in favor of the say-on-pay proposal. The Compensation Committee of the Board believes this affirms stockholders' support of our approach to executive compensation. The Committee welcomes feedback and dialogue with stockholders and will continue to consider the outcome of the Company's say-on-pay votes and evolving best practices in this area when making future compensation decisions for the NEOs.

SETTING COMPENSATION FOR THE NAMED EXECUTIVE OFFICERS

The Compensation Committee of the Board reviews and assesses the total compensation of each NEO on an annual basis. Material changes in compensation typically occur only based on performance, in response to significant changes in an individual's responsibility, due to changes in market conditions, or in limited circumstances when the Company is at risk of losing a highly talented and valued employee.

Compensation decisions are made based on the following information:

- **External Market Analysis:** The Compensation Committee annually conducts a review of competitive market compensation for each NEO. The Committee's independent consultant performs this review after the Committee has approved the peer companies to be used for the study. The Committee targets the competitive market for talent for both fixed and total target compensation.
- **Internal Equity:** When making pay decisions, the Compensation Committee also takes into account internal equity. The Company has established comparability guidelines based on an executive's purview with regard to revenue, operating income, geographic scope, and job complexity.
- **Individual Performance and Talent Assessment:** The Compensation Committee's decision-making is also informed by the Company's Talent Review process. The Committee participates in this annual review with the full participation of the Board of Directors. This Board-level review includes a discussion of each of the NEOs, their future career path and successors, as well as succession plans for IPG's CEO. These reviews inform pay decisions by providing an in-depth look at the NEOs, their responsibilities, relative contributions and future potential, as well as their relative compensation.
- **Other factors:** Additional factors, such as scarce skills, leadership skills, long-term potential and key client relationships are also taken into consideration when reviewing compensation.

USE OF COMPETITIVE DATA FOR COMPENSATION REVIEWS

THE MARKET FOR TALENT

To ensure that our compensation programs reflect best practices, as well as to maintain competitive compensation program designs and levels, the Committee considers market data and compensation ranges of our peer group. In 2013, the Committee approved a single peer group that reflects both talent peers as well as industry peers. Minor changes were made to this Peer Group as part of the 2021 annual review of compensation due to recent Mergers and Acquisition activity (detailed below). The Committee continues to believe that this Peer Group is appropriate.

In December of 2021, Meridian conducted its annual market review to assess the competitiveness of each NEO's target total compensation (consisting of base salary, target annual incentive and target long-term incentives). Compensation data was analyzed for comparable positions at the 2021 Compensation Peer Group (detailed below) as well as size-relevant data from several published survey sources. Meridian compared each NEO based on his or her title and described roles and responsibilities.

Using the size-adjusted data, the 2021 study concluded that our NEOs, in aggregate, were positioned near the median of the market for target total compensation. The Compensation Committee utilized this information, as well as other incumbent-specific factors, to determine whether any pay adjustments were warranted for 2022.

We believe that the peer group again contained a good representation of IPG's industry competitors and size-relevant, talent-focused comparators. The Compensation Committee annually reviews the validity of the peer group and for 2021, it was decided that we would remove Accenture, Meredith and TEGNA from the prior year and add Cognizant Technology Solutions, Gartner, Nexstar Media Group, Sinclair Broadcast Group and Take-Two Interactive. No other changes were made. The final peer group is reflected in the table below:

2021 COMPARATOR GROUP (used to inform 2022 compensation decisions)		
Activision Blizzard, Inc.	IAC/InterActivCorp	Sinclair Broadcast Group
Cognizant Technology Solutions	Lions Gate Entertainment Corp.	Sirius XM Holdings Inc.
Discovery Inc.	News Corporation	Take-Two Interactive
eBay Inc.	Nexstar Media Group	Thomson-Reuters Corporation
Electronic Arts Inc.	Nielsen Holdings plc	ViacomCBS Inc.
Fox Corporation	Omnicom Group Inc.	WPP plc
Gannett Co., Inc.	Publicis Groupe SA	
Gartner	Quarate Retail Group Inc.	

At the time of the review in 2021, the median revenue for these peer companies was approximately \$8.7b as compared to IPG's revenue of \$8.5b.

RETIREMENT BENEFITS

PURPOSE

The Company views retirement benefits as a key component of our executive compensation program because they encourage and reward long-term service. Therefore, we offer our NEOs and other employees a comprehensive benefits program that provides the opportunity to accumulate retirement income.

PROGRAM DESCRIPTIONS

Our current retirement programs include the Company's qualified 401(k) savings plan, the Capital Accumulation Plan ("CAP") and Executive Special Benefit Agreement ("ESBA").

The Company's 401(k) savings plan is a tax-qualified retirement savings plan pursuant to which all U.S.-based employees, including the NEOs, are able to contribute compensation -, subject to dollar limits prescribed by federal tax laws. For

employees with less than 10 years of service, the Company matches 50% of the first 6% of compensation contributed. For employees with 10 or more years of service, the Company matches 75% of the first 6% of compensation that is contributed. The Company's 401(k) savings plan allows for pre-tax, Roth 401(k) or a combination of both up to limits prescribed by federal tax laws. The Company Match applies to the total amount contributed, either pre-tax, or Roth 401(k).

The CAP plan provides participants with an annual dollar credit to an interest-bearing account. Under the terms of the CAP, interest is credited on December 31st of each year at an interest rate equal to the closing 10-year U.S. Treasury yield on the last business day of the immediately preceding calendar year. For a more detailed description of the CAP, see "Nonqualified Deferred Compensation Arrangements—the Interpublic Capital Accumulation Plan" on page 56. All NEOs participate in CAP at the levels described on page 56.

The ESBA, which is currently frozen to new participants, also provides a defined annual annuity to selected executives for a 15-year period following retirement upon satisfying specific vesting provisions. Mr. Krakowsky is the only NEO who participates in the ESBA, and Mr. Krakowsky no longer accumulates pay or service credit in the plan as his future benefit is fully vested. For a more detailed description of the ESBA please refer to page 55.

RETIREMENT BENEFITS REVIEW AND DECISION PROCESS

As part of its competitive pay review, the Compensation Committee's independent consultant periodically provides the Committee with a comparison of IPG's retirement benefits programs to those of a sample of competing companies. This retirement benefits program review is conducted in the context of total compensation, and the review considers compensation and benefits in total.

Decisions regarding new or enhanced participation in these programs, other than 401(k), are made after considering the impact on total compensation this one component of total pay would have. For a number of the NEOs, retirement and other benefits are the subject of individual employment agreements (which are described in greater detail beginning on page 58, under the heading "Employment Agreements" and which give IPG the ability to increase, but not decrease, the specific benefit).

On a case-by-case basis, the Compensation Committee of the Board of Directors and IPG's Management Human Resources Committee (MHRC)—to which the Committee delegates certain responsibilities and consists of IPG's CEO, the EVP, CFO, and the EVP and General Counsel—consider the appropriateness of CAP participation and benefits, with all such decisions for NEOs made solely by the Compensation Committee. In making recommendations to the Compensation Committee or MHRC, the Company considers an individual's role, level in the organization, total compensation level, performance, length of service, and other factors. When making determinations to issue additional CAP awards, the Company also considers an individual's current retirement positioning, including all forms of accrued qualified and non-qualified retirement benefits previously awarded or earned and the maximum value of the individual's eligible Company match in the 401(k) savings plan or if not a participant for any year it assumes the executive contributed the maximum amount permitted to the plan.

SEVERANCE AND CHANGE OF CONTROL BENEFITS

In order to provide market-competitive total compensation packages to our executive officers, as well as to ensure the ongoing retention of these individuals in the event of potential takeovers that would create uncertainty as to their future employment, the Company offers market competitive (or market appropriate) severance and change of control benefits upon the occurrence of several specified events.

The NEOs may receive severance benefits from the Company under the terms of their employment agreements (described in greater detail beginning on page 58 under the heading "Employment Agreements"), the Company's Executive Severance Plan and/or change of control agreements, depending on the circumstances of a potential termination.

Under the 2019 PIP, if a Change of Control occurs in the first quarter, NEOs receive an accelerated and prorated payout of their annual incentive award at target. If a Change of Control occurs after the first quarter, NEOs receive a fully accelerated payout of their annual incentive award at target. Upon a Change of Control, NEOs outstanding long-term incentives would not be vested unless the NEO incurred a Qualifying Termination (upon which vesting is accelerated). Under our change in control agreements, individuals are eligible for enhanced severance benefits, contingent on a Change of Control being followed by a Qualifying Termination.

SHARE OWNERSHIP GUIDELINES (SOGs)

We have adopted share ownership guidelines (SOGs) for our Non-Management Directors, NEOs and other senior executives. The purpose of these SOGs is to:

- More closely align the financial interests of executives and Non-Management Directors with our stockholders.
- Communicate the commitment and personal investment of executives and directors in the Company.

The SOGs also prohibit both transactions involving derivatives that are designed to hedge against the market risk associated with ownership of IPG shares and the pledging of IPG shares as security or collateral for any obligation.

The SOGs are expressed as multiples of base salary. NEOs and other applicable senior executives must satisfy the SOG requirements within a maximum of five years from the date at which he or she joins the Company or is promoted into a position to which the guidelines apply. Those executives who have not met their established requirement level in the time allotted will be required to hold all net after-tax shares delivered upon the settlement of equity awards until such requirements are met.

NAME	2022 SHARE OWNERSHIP GUIDELINE as multiple of base salary	2022 COMPLIANCE WITH SHARE OWNERSHIP GUIDELINES
PHILIPPE KRAKOWSKY	6x	Yes
ELLEN JOHNSON	2x	Yes
ANDREW BONZANI	2x	Yes
CHRISTOPHER CARROLL	2x	Yes

The Compensation Committee of the Board annually reviews the established SOGs for all SOG participants to ensure that they remain market appropriate. The Committee also reviews levels of stock ownership against the SOG levels applicable to the NEOs and other senior executives. As of December 31, 2022, all NEOs had either met or exceeded such requirements.

TAX AND ACCOUNTING IMPLICATIONS

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Each year, the Compensation Committee reviews and considers the deductibility of compensation paid to our NEOs.

Section 162(m) of the Code generally imposes a \$1 million deduction limitation on compensation paid to certain executive officers of a publically held corporation during the year. The executive officers to whom Code Section 162(m) deduction limit applies include the Company's Chief Executive Officer and Chief Financial Officer, the three most highly compensated executive officers (other than the Chief Executive Officer and Chief Financial Officer), and any such individual who was a "covered employee" for any year after 2016. The Committee reserves the right to approve compensation that is not deductible in order to ensure competitive levels of total compensation for our NEOs.

NON-QUALIFIED DEFERRED COMPENSATION

Most of the Company's deferred compensation and nonqualified retirement benefit arrangements, including most of the Company's severance arrangements, are subject to Section 409A of the Internal Revenue Code, which provides that nonqualified deferred compensation plans follow certain rules on the timing and form of payments. Noncompliance with these rules could result in adverse tax consequences for the executives. The Company has made significant efforts to ensure that affected arrangements comply with these requirements.

ACCOUNTING FOR STOCK-BASED COMPENSATION

The Company accounts for stock-based payments, including its grants of stock options, restricted shares and performance shares, in accordance with the requirements of FASB ASC Topic 718.

COMPENSATION RISK

The Company regularly reviews its compensation policies and practices, including any risks that may be inherent in the design of the Company's compensation plans. In early 2022, the Company reviewed the results of its annual risk assessment process

and the resulting analysis with the Compensation Committee, which concluded that the compensation plans continue to reflect the appropriate compensation goals and philosophy and any risk arising from the Company's compensation policies and practices was not deemed likely to have a material adverse impact on the Company's performance or financial results.

COMPENSATION RECOVERY IN THE EVENT OF A FINANCIAL RESTATEMENT

The Company has adopted a "clawback" policy which provides that in the event of a significant restatement of financial results due to fraud or misconduct, the Company will determine whether a senior executive received an incentive award that would have been less if the award was calculated based on such restated financial results ("Excess Compensation"). The Board of Directors will, to the full extent permitted by governing law, seek to recoup for the benefit of the Company Excess Compensation paid to a senior executive whose fraud or misconduct, as determined by the Board of Directors, resulted in such restatement. For purposes of this policy, the term "senior executives" means "executive officers" as defined under the Securities Exchange Act of 1934, as amended, and the term "bonuses" means awards under The Interpublic Group of Companies, Inc. 2019 Performance Incentive Plan or any equivalent incentive plan which supersedes such plan, including, among other awards, annual incentives, stock options, performance cash and performance shares.

COMPENSATION AND LEADERSHIP TALENT COMMITTEE REPORT

Among its duties, the Compensation and Leadership Talent Committee is responsible for reviewing and discussing with the Company's management the Compensation Discussion & Analysis included in this Proxy Statement for the Annual Meeting (the "CD&A"). Based on such a review and discussion, the Committee has recommended to the Board of Directors that the CD&A be included in this Proxy Statement and incorporated by reference in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

- (1) Reflects the potential payout in cash that the executive was entitled to earn for calendar year 2022 pursuant to an annual incentive award made in 2022 under the 2019 PIP as described in greater detail on page 36, under the heading "Compensation Discussion & Analysis — Annual Incentives." The actual amounts paid are shown in the Summary Compensation Table in the column titled "Non-Equity Incentive Plan Compensation."
- (2) Reflects potential payout that the executive is entitled to earn pursuant to a long-term performance cash award made in 2022 under the 2019 PIP. As described in greater detail on page 38, under the heading "Compensation Discussion & Analysis — 2022 Ongoing Long-Term Incentive Targets," depending on the actual level of performance relative to goals over a two-year performance period, an individual will be entitled to receive a payout ranging from 0% to 200% of the target amount. The amount of the payout, as so determined, will vest at the end of the third year following the grant of the award and will be settled entirely in cash.
- (3) Reflects potential payout in shares of Common Stock that the executive is entitled to earn pursuant to a performance share award made in 2022 under the 2019 PIP. As described in greater detail on page 38, under the heading "Compensation Discussion & Analysis — 2022 Ongoing Long-Term Incentive Targets," depending on the actual level of performance relative to goals over a three-year performance period, an individual will be entitled to receive a payout ranging from 0% to 200% of the target amount. The amount of the payout, as so determined, will vest at the end of the third year following the grant of the award.
- (4) Reflects the number of shares under restricted stock unit award grants made under the 2019 PIP. As described in greater detail on page 38, under the heading "Compensation Discussion & Analysis — 2022 Ongoing Long-Term Incentive Targets," these shares are credited with quarterly cash dividends, when and as declared by the Board of Directors on the Common Stock. All of the shares of restricted stock, and any cash dividends paid on the restricted stock, are subject to forfeiture if the award recipient terminates employment before the third anniversary of the grant date.
- (5) Reflects the grant date fair value of the equity award or stock award, as applicable, disclosed in the adjacent column computed in accordance with FASB ASC Topic 718, excluding the effect of estimated service-based forfeitures. The assumptions used in the calculation of these amounts are set forth in Note 12 to Interpublic's audited financial statements included in the 2022 Form 10-K.

PENSION ARRANGEMENTS

Executive Special Benefit Agreement

Mr. Krakowsky entered into an Executive Special Benefit Agreement (an "ESBA") in 2002, which provides that if his employment with Interpublic terminates due to a Qualifying Termination (as defined under the heading "Severance and Change of Control Benefits" on page 61) retirement, resignation or death after his 60th birthday, Interpublic will pay him or his estate \$245,000 per year for 15 years. At 60 years of age, Mr. Krakowsky is now entitled to receive, upon his retirement, resignation or termination from employment with Interpublic, \$245,000 per year for 15 years.

If Mr. Krakowsky's employment terminates within two years after a Change of Control (as defined under the heading "Severance and Change of Control Benefits" below) of Interpublic, his ESBA benefits would be paid in a lump sum, rather than installments. The amount of the lump sum would be the then-present value of \$245,000 per year for 15 years.

If Mr. Krakowsky dies before all required payments are made to him under these ESBA's, Interpublic would make the remaining payments to his beneficiaries.

Pension Benefits

The following table provides information on pension benefits held by the named executive officers as of December 31, 2022.

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$) ⁽¹⁾⁽²⁾	Payments During Last Fiscal Year (\$)
Philippe Krakowsky	ESBA	N/A	2,508,768	0
Ellen Johnson	—	—	—	—
Andrew Bonzani	—	—	—	—
Christopher Carroll	—	—	—	—

- (1) The calculation of the present value of accumulated benefit assumes a discount rate of 5.65%. No preretirement decrements were used in the calculation of present values. Contingent benefits arising from death, early retirement or other termination of employment were not valued.
- (2) For Mr. Krakowsky, the amount shown is the present value of the maximum benefit that he will be entitled to receive under his ESBA upon the termination of his employment. The terms and conditions of the ESBA are described in greater detail on page 55 under the heading "Executive Special Benefit Agreement."

NONQUALIFIED DEFERRED COMPENSATION ARRANGEMENTS

The Interpublic Capital Accumulation Plan

Interpublic maintains a Capital Accumulation Plan ("CAP") under which senior management employees of Interpublic and its subsidiaries selected by the Management Human Resources Committee ("MHRC") are entitled to receive deferred compensation benefits. Under the CAP, a participating employee receives annual credits of a specified dollar amount (a "dollar credit") and interest each December 31st. The amount of each year's interest credit is equal to the 10-year U.S. Treasury yield curve annual rate (also known as the "constant maturity rate") as of the last business day of the immediately preceding calendar year. Each participant's account balance becomes fully vested as to both prior and future dollar and interest credits when the participant has completed three years of participation in the CAP, except that all interest credits since the inception of the participant's participation in the plan are subject to forfeiture if the participant breaches a non-competition or non-solicitation agreement. If a participant has a Qualifying Termination, the CAP provides for continued vesting through the end of the participant's severance period and a special dollar credit equal to the dollar credits that would have been added to the participant's account (based on the credit amount in effect at time of the Qualifying Termination) if such participant had continued working for Interpublic until the due date for such participant's last severance payment. Any portion of a participant's benefit that is not vested upon termination of employment (taking into account accelerated vesting upon a Qualifying Termination) will be forfeited.

If a participant has a Qualifying Termination within two years after a Change of Control, (i) the participant will become fully vested and (ii) the participant's account will be credited with an amount equal to the dollar credits that would have been added to such participant's account (based on the credit amount in effect at time of the Qualifying Termination) if such participant had continued working for Interpublic until the end of such participant's severance period.

Each named executive officer is a participant in the CAP and for 2022 received the following annual dollar credit:

Name	Annual Dollar Credit (\$)
Mr. Krakowsky	150,000
Ms. Johnson	75,000
Mr. Bonzani	50,000
Mr. Carroll	50,000

For 2022, each participant received an interest credit equal to 1.512% of such participant's account balance as of December 31, 2022 (determined before the 2022 dollar credit was added). The CAP account balances are fully vested for each of the named executive officers.

Executive Compensation

In general, each participant's vested account balance is payable in a lump sum two years after the termination of such participant's employment with Interpublic and its subsidiaries. However, if the participant's employment terminates within two years after a Change of Control, payment will be accelerated.

Nonqualified Deferred Compensation

The following table provides information on non-qualified deferred compensation arrangements for the named executive officers as of December 31, 2022, which consist exclusively of benefits under the CAP.

Name	Executive contributions in last FY (\$)	Registrant contributions in last FY (\$) ⁽¹⁾	Aggregate earnings in last FY (\$) ⁽²⁾	Aggregate withdrawals/distributions (\$)	Aggregate balance at last FYE (\$) ⁽³⁾
Philippe Krakowsky	0	150,000	20,603	0	1,533,211
Ellen Johnson	0	75,000	20,485	0	1,450,318
Andrew Bonzani	0	50,000	4,750	0	368,919
Christopher Carroll	0	50,000	14,413	0	1,017,639

- (1) The amounts shown as "Registrant contributions in last FY" are dollar credits that were added to the named executive officer's CAP account as of December 31, 2022 and are included in the "All Other Compensation" column for 2022 of the "Summary Compensation Table" on page 49.
- (2) No earnings on deferred amounts are included in the "Change in Pension Value and Nonqualified Deferred Compensation Earnings" column of the "Summary Compensation Table" for 2022, 2021 or 2020 because the interest credits under the CAP did not constitute "above-market" or "preferential" earnings as defined by SEC rules.
- (3) The aggregate balances shown in this column include the following dollar credits that were included in the "All Other Compensation" column of the "Summary Compensation Table" for each of 2021 and 2020 on page 49.

Name	2021 (\$)	2020 (\$)
Mr. Krakowsky	150,000	150,000
Ms. Johnson	75,000	75,000
Mr. Bonzani	50,000	50,000
Mr. Carroll	50,000	50,000

EMPLOYMENT AGREEMENTS, TERMINATION OF EMPLOYMENT AND CHANGE OF CONTROL ARRANGEMENTS

Employment Agreements

Each of the named executive officers has an employment agreement with Interpublic. Each employment agreement includes provisions describing the named executive officer's position and responsibilities, salary and eligibility for incentive compensation and other benefits and perquisites. Each agreement also includes covenants pursuant to which the named executive officer agrees not to divulge confidential information of Interpublic and its subsidiaries and agrees for a period of time after termination of employment to refrain from soliciting employees of Interpublic and its subsidiaries and from soliciting or handling the business of clients of Interpublic.

Annual Bonus - Each employment agreement provides for each named executive officer to receive an annual target bonus, with the actual award ranging between 0% and 200% of the target depending on Interpublic's financial performance, individual performance, and management discretion.

Long-Term Incentive Awards - Each employment agreement also provides for participation in Interpublic's performance-based long-term incentive programs. Each year's awards may consist of stock options, restricted stock, performance-based share and cash awards or another form of incentive award at the sole discretion of the Compensation Committee.

Employment Agreement Base Salary and Incentive Compensation Information

The following table provides the annual salary, annual incentive target percentage and long-term incentive target award value for each named executive officer for 2022.

Name	Salary \$	Annual Incentive Target %	Long-Term Incentive Target \$
Philippe Krakowsky	1,500,000	200	9,000,000
Ellen Johnson	900,000	125	2,750,000
Andrew Bonzani	900,000	100	2,400,000
Christopher Carroll	700,000	80	850,000

Philippe Krakowsky Employment Agreement

Mr. Krakowsky's employment agreement also provides that he be entitled to (i) participate in the CAP and (ii) participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

If Mr. Krakowsky's employment is terminated involuntarily without Cause, his employment agreement provides for salary continuation for 24 months from the date notice of his termination is provided, at the rate in effect before his termination; provided that if Mr. Krakowsky obtains alternative employment before the end of the severance period, the amount of his severance pay will be reduced (but not below zero) by the amount of the non-contingent compensation payable to Mr. Krakowsky in connection with his new employment for service before the end of the severance period.

Mr. Krakowsky is also eligible to receive a bonus for the year in which his employment is terminated. After an involuntary termination, Mr. Krakowsky would also be eligible to receive: (i) continued vesting of all long-term equity and cash incentive awards until the end of the severance period, with such long-term incentives vesting pro-rata as of the first anniversary, (ii) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, (iii) a cash payment equal to the amount of matching contributions that Interpublic would have contributed on his behalf to the Interpublic Savings Plan if he had continued participating in that plan through the first anniversary of the date of termination and (iv) a cash payment in lieu of continued life insurance for 12 months from the notice date. The subsidy for medical, dental and vision benefits would end if Mr. Krakowsky accepts employment with another employer offering similar benefits. Mr. Krakowsky may terminate his employment at any time by giving notice to Interpublic at least six months in advance.

Ellen Johnson Employment Agreement

Ms. Johnson's employment agreement also provides that she be entitled to (i) participate in the CAP and (ii) participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

If Ms. Johnson's employment is terminated involuntarily without Cause, her employment agreement provides for payment of an amount equal to her base salary for 18 months at the rate in effect immediately prior to her date of termination.

Ms. Johnson is also eligible to receive a bonus for the year in which her employment is terminated. After her termination date, Ms. Johnson will be eligible to receive (i) continued vesting of all long-term equity and cash incentive awards until the end of the severance period (i) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, and (ii) a cash payment equal to the amount of matching contributions that Interpublic would have contributed on her behalf to the Interpublic Savings Plan if she had continued participating in that plan until the end of the severance period. Ms. Johnson may terminate her employment at any time by giving notice to Interpublic at least 30 days in advance.

Andrew Bonzani Employment Agreement

Mr. Bonzani's agreement also provides that he be entitled to participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

In the event of a Qualifying Termination, his employment agreement provides for severance pay under the Executive Severance Plan (described below), with a salary continuation period of 18 months.

Christopher Carroll Employment Agreement

Mr. Carroll's employment agreement also provides that he be entitled to (i) participate in the CAP and (ii) to participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

If Mr. Carroll's employment is terminated involuntarily without Cause, his employment agreement provides for (i) salary continuation, at the rate in effect before his termination, for 12 months from when notice of his termination is provided and (ii) lump sum payment of his target bonus for the year of termination. After his termination date, Mr. Carroll will be eligible to receive (i) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, and (ii) a cash payment equal to the amount of matching contributions that Interpublic would have contributed on his behalf to the Interpublic Savings Plan if he had continued participating in that plan until the end of the severance period. Mr. Carroll may terminate his employment at any time by giving notice to Interpublic at least six-months in advance.

Executive Severance Plan

Under the Interpublic Executive Severance Plan ("ESP"), certain senior management employees, including the named executive officers, are entitled to receive severance and other welfare benefits, in the event of a Qualifying Termination. In general, the ESP provides for salary continuation, at the executive's base salary rate in effect for the year of termination, for a specified number of months, which varies generally according to the seniority of the executive. If the executive's Qualifying Termination occurs within two years after a Change of Control, severance is payable in a lump sum, rather than over the severance period.

Under the ESP the named executive officers are entitled to the following salary continuation periods:

Name	Salary Continuation Period
Mr. Krakowsky	24 months
Ms. Johnson	18 months
Mr. Bonzani	18 months
Mr. Carroll	12 months

The ESP also provides for cash payments in lieu of continued medical, dental and vision benefits at active employee rates for the salary continuation period, followed by a COBRA period.

Benefits under the ESP are not in addition to severance benefits under individual employment agreements. Rather, severance benefits that are paid under individual employment agreements are credited against amounts payable under the ESP.

The ESP requires the executive to agree to certain post-termination covenants which, if violated, would result in the forfeiture of the executive's future severance payments and benefits. Benefits under the ESP are also conditioned on the executive executing a mutual release.

Change of Control Agreements

Each named executive officer has entered into a change of control agreement with Interpublic that provides for severance and other benefits in the event of a Qualifying Termination within two years after a Change of Control. These benefits are instead of, and not in addition to, the benefits the executive otherwise would be entitled to receive under the executive's employment agreement and the ESP.

Each of these change of control agreements provides for a lump-sum severance payment equal to a specified multiple of the executive's base salary plus his or her target bonus. For purposes of this calculation, salary and target bonus are each determined based on the rate in effect for the executive for the year of the Change of Control or for the year of the Qualifying Termination, whichever is greater.

The multiple applied and the corresponding months of service under the change of control agreements are:

Name	Multiple	Months of Severance
Mr. Krakowsky	2	30 months
Ms. Johnson	2	24 months
Mr. Bonzani	2	24 months
Mr. Carroll	2	24 months

In addition, under the agreement the named executive officer's benefit under the CAP will be subject to the following: (i) annual dollar credits will be added for his severance period as if the severance were paid in semi-monthly installments over the severance period (rather than in a lump sum); (ii) the executive will receive a prorated annual dollar credit for the year in which the severance period expires, and (iii) in addition to the interest credits added under the terms of the CAP each December 31st, the executive will receive a pro-rated interest credit for the year in which the severance period expires, at the rate applied under CAP for the year in which the executive's CAP balance is paid.

Each agreement also provides for cash payments to subsidize the cost of medical, dental and vision benefits during the months for which severance is provided, in lieu of the benefit subsidies otherwise payable under the executive's employment agreement and the ESP.

Each agreement requires the executive to agree to certain post-termination covenants, which restrict solicitation of employees and clients, and if violated, would result in the forfeiture of the executive's severance payments and benefit.

SEVERANCE AND CHANGE OF CONTROL BENEFITS

The preceding narrative describes the severance and other benefits to which the named executive officers may be entitled under the various agreements, plans and arrangements in connection with or following a termination of the executive's employment. Below is a table that quantifies the benefits that each named executive officer would have received had the executive's employment terminated as of December 31, 2022 under the following circumstances:

Triggering Event	Description
Termination for Cause or Voluntary Termination Without Good Reason	<p>In general (subject to certain variations in each executive's employment agreement), Interpublic would have "Cause" to terminate an executive's employment if the executive (a) materially breaches a provision in his employment agreement and fails to cure such breach within a 15-day period; (b) misappropriates funds or property of Interpublic; (c) attempts to secure any personal profit related to the business of Interpublic without proper prior written approval; (d) engages in fraud, material dishonesty, gross negligence, gross malfeasance or insubordination, or willful (i) failure to follow Interpublic's Code of Conduct or (ii) misconduct in the performance of his duties, excluding, in either case, acts taken in good faith that do not cause material harm to Interpublic; (e) refuses or fails to attempt in good faith to perform such executive's duties as an employee or to follow a reasonable good-faith direction of the Board of Directors or the person to whom the executive reports directly if such refusal or failure is not cured within a 15-day period; (f) has committed or is formally charged or indicted for a felony or a crime involving dishonesty, fraud or moral turpitude or (g) engages in conduct that is clearly prohibited by the policy of Interpublic prohibiting discrimination or harassment based on age, gender, race, religion, disability, national origin or any other protected category.</p> <p>In general, an executive would have "Good Reason" to terminate such executive's employment if Interpublic, without the executive's consent, (a) materially reduces the executive's base salary; (b) materially diminishes the authority, duties or responsibilities of the executive or the supervisor to whom the executive is required to report; (c) materially diminishes the budget over which the executive has authority; (d) requires the executive to relocate to an office more than 50 miles outside the city in which such executive is principally based or (e) materially breaches an employment agreement with the executive. Before resigning for Good Reason, the executive generally must give Interpublic notice and an opportunity to cure the adverse action.</p>
Qualifying Termination	<p>An involuntary termination of the executive's employment without Cause or a resignation by the executive for Good Reason.</p>
Change of Control	<p>In general, a Change of Control will be deemed to have occurred if: (i) any person, other than Interpublic or any of its subsidiaries, becomes the beneficial owner of more than 50% of the combined voting power of Interpublic's then outstanding voting securities; (ii) any person, other than Interpublic or any of its subsidiaries, acquires (during a 12-month period) ownership of 30% or more of the combined voting power of Interpublic's then-outstanding voting securities; (iii) any person acquires 40% or more of Interpublic's assets (determined based on gross fair market value) or (iv) during any 12-month period, a majority of the members of the Board is replaced by directors whose appointment or election is not endorsed by a majority of the members of the Board before the date of their appointment or election.</p> <p>Amounts shown in the table under the heading Change of Control are paid upon a Change of Control, without regard to whether the executive's employment is terminated.</p>
Qualifying Termination following a Change of Control	<p>A Qualifying Termination of an executive employment within two years after a Change of Control.</p>
Death or Disability	<p>Disability is determined in accordance with our policies and procedures based on the facts and circumstances presented.</p>
Retirement	<p>Retirement of an executive is deemed to have occurred upon the executive's voluntary termination of employment with the Company's approval after (i) the executive has attained the age of 65 and (ii) has completed 10 years of service with IPG.</p>

CEO PAY RATIO

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the 2022 annual total compensation of our CEO and the median of the annual total compensation of our employees (other than the CEO).

For 2022, our last completed calendar year:

- The annual total compensation of our CEO was \$13,209,442 and
- The median of the annual total compensation of our employees (other than our CEO) was \$65,140.

Based on this information, for 2022, we estimate the ratio of the annual total compensation of our CEO to the median of the annual total compensation of all employees to be 203:1.

As permitted by SEC rules, we used the median employee identified in 2020 for purposes of calculating our 2022 pay ratio. We believe our use of last year's median employee is appropriate because no change has occurred in our employee population or our employee compensation arrangements that we reasonably believe would result in a significant change to our pay ratio disclosure.

We identified our median employee for the 2020 pay ratio analysis using the methodology and the material assumptions, adjustments, and estimates described below.

- We determined that, as of October 1, 2020, our employee population of full-time, part-time and temporary employees consisted of over 51,000 individuals working at our parent company and worldwide-consolidated subsidiaries.
- To identify the "median employee" from our employee population, we first determined the amount of each employee's "earnings" for the period January 1, 2020 through October 1, 2020. For this purpose, earnings refers to the employee's base salary and bonus, if any, paid during the foregoing period. Base salary earnings for any full-time and part-time employees who were hired after January 1, 2020 were annualized to October 1, 2020 (to reflect 9 months of earnings). Earnings of employees outside of the U.S. were converted to U.S. dollars using the Company's October 2020 monthly currency exchange rates.
- We then identified our median employee from our employee population by arraying and sorting the employees by the foregoing earnings measure and choosing the employee ranked in middle of the population.
- The annual total compensation for our CEO represents the amount reported for our CEO in the "Total" column of our 2022 Summary Compensation Table included on page 49 of this Proxy Statement.
- The annual total compensation of our median employee was calculated based on the same methodology to determine our named executive officers' compensation disclosed in our 2022 Summary Compensation Table.

PAY VERSUS PERFORMANCE

The Securities and Exchange Commission (“SEC”) has adopted a new rule intending to compare “Pay versus Performance” as set forth below. This new rule requires the use of the term “Compensation Actually Paid” (CAP). The amounts shown in columns three and five below as “Compensation Actually Paid” do not reflect the compensation amounts actually paid or received by the Company’s NEO’s. In addition, while the table shows the Summary Compensation Table (SCT) compensation and CAP values side by side, they are not comparable. For a complete discussion of our executive compensation programs and the Compensation Committee’s approach and philosophy in aligning pay with performance for our NEOs, please see the “Compensation Discussion and Analysis” section of this Proxy Statement beginning on page 31.

The “Compensation Actually Paid” portions of this table are calculated in accordance with the SEC rules and include amounts showing the potential value or change in value of long-term grants that may or may not be realized and not actual sums received during the respective calendar year. Furthermore, those potential benefits remained or continue to remain subject to the risks inherent in the Company’s performance and changes in the Company’s stock price prior to the period at which those performance-based grants could be realized.

- (a) The CEO for (i) calendar years 2022 and 2021 is Mr. Krakowsky, and (ii) calendar year 2020 is Michael Roth. (b) the Other NEOs for calendar year (i) 2022 are Ms. Johnson and Messrs. Bonzani and Carroll (ii) 2021 are Ms. Johnson and Messrs. Roth, Bonzani and Carroll and (iii) for 2020 are Ms. Johnson and Messrs. Krakowsky, Bonzani and Carroll.
- The amounts shown as “Compensation Actually Paid” have been calculated in accordance with Item 402(v) of Regulation S-K and do not reflect compensation actually paid or received by the Company’s NEOs. These amounts reflect “Total Compensation” as set forth in the Summary Compensation Table for each year, adjusted as set forth in the following table, and include amounts showing the potential value or change in value of long-term grants that may or may not be realized and not actual sums received during the respective calendar year. No amounts are listed for the Pension Service Cost as no service cost was attributable for the applicable years under ASC 715. Equity values are calculated in accordance with FASB ASC Topic 718.

ITEM 5. STOCKHOLDER PROPOSAL

Kenneth Steiner, 14 Stoner Ave., 2M, Great Neck, NY 11021, has submitted the following proposal for consideration at the Annual Meeting. His stockholdings will be provided promptly upon request.

The text of the proposal is as follows:

Proposal 5 – Independent Board Chairman

Shareholders request that the Board of Directors adopt an enduring policy, and amend the governing documents as necessary in order that 2 separate people hold the office of the Chairman and the office of the CEO.

Whenever possible, the Chairman of the Board shall be an Independent Director.

The Board has the discretion to select a Temporary Chairman of the Board who is not an Independent Director to serve while the Board is seeking an Independent Chairman of the Board on an accelerated basis.

It is a best practice to adopt this policy soon. However this policy could be phased in when there is a contract renewal for our current CEO or for the next CEO transition.

This proposal is important to Interpublic because the Board can give the 2 most important jobs at Interpublic, Chairman and CEO, to one person on short notice.

Plus a Presiding Director is no substitute for an independent Board Chairman. According to the 2022 Interpublic annual meeting proxy the IPG Presiding Director has limited duties and lacks in having exclusive powers, for example:

- coordinating feedback to the Chief Executive Officer on behalf of the non management directors on business issues and management. (Others can do this also)
- coordinating and developing with the Chief Executive Officer the agendas and presentations for meetings of the Board (Vague and can potentially be accomplished in an hour before a meeting.)
- as appropriate, being available for direct communication with stockholders who request such a communication, and (Vague and may not involve oversight duties.)
- perform such other duties and responsibilities as the Board may determine from time to time. (Vague and may not involve oversight duties.)

Plus management fails to give shareholders enough information on this topic to make a more informed decision. There is no management comparison of the *exclusive powers* of the Office of the Chairman and the de minimis *exclusive powers* of the Lead Director.

Please vote yes:

Independent Board Chairman – Proposal 5

MANAGEMENT STATEMENT IN OPPOSITION

The Board has carefully considered the proposal and recommends that stockholders vote AGAINST the proposal for the following reasons:

The Chairman of the Board is currently independent

The Company currently has an independent Chair, with the Board making the determination that such a leadership structure would be the most appropriate for the organization at this time. In making such determination, the Board

appointed David Thomas as the independent Chair, a role he has served in since January 2022. Mr. Thomas is well versed in the complexity of our business, having served as Presiding Director for many years prior to his appointment as independent Chair.

Board flexibility in determining leadership is in the best interests of the Company and its stockholders

The Board believes that the best leadership structure may vary as circumstances warrant and as such its ability to maintain appropriate flexibility in determining the appropriate leadership at a given time is crucial in maximizing the Company's success. In accordance with the Company's Corporate Governance Guidelines, the Board may allocate the responsibilities of the offices of Chair and CEO in any way it considers is in the best interests of the Company. Given the constantly evolving environment in which we operate, the Board values having such flexibility to select the structure of leadership best suited to meet the needs of the Company and its stockholders.

The proposal, which requires a policy of separate Chair and CEO roles and suggests that the roles of independent Chair and presiding director should each have prescribed and exclusive powers, seeks to eliminate the flexibility of the Board to make determinations using its experience, judgment, and stockholder feedback. This would effectively deprive the Board of the ability to evaluate the particular needs of the Company and the specific qualifications of the individual in question. Given the presence of the independence safeguards and overall governance structure noted above, the Board believes that such a mandate would be both unnecessary and detrimental to the interests of stockholders.

The Guidelines provide for the election of a Lead Independent Director if the positions of Chairman and CEO are combined

The Board firmly supports having an independent Director in a Board leadership position at all times. As such, Interpublic's Corporate Governance Guidelines provides that, if the roles of Chair and CEO are combined, the Board will designate a presiding director from among the independent directors. The duties of the presiding independent director and the non-executive chair include, but are not limited to, the following functions:

- convening and chairing meetings and executive sessions of the Non-Management Directors,
- facilitating communication and serving as a liaison to the Chief Executive Officer on behalf of the Non-Management Directors on business issues and management,
- coordinating and developing with the Chief Executive Officer the annual Board calendar, and agendas and presentations for meetings of the Board,
- as appropriate, being available for direct communication with stockholders who request such a communication,
- providing guidance and oversight to management, and
- perform such other duties and responsibilities as the Board may determine from time to time.

The Board believes that the Company's balanced and flexible corporate governance structure, including the requirement to elect an independent presiding director, if the Chair and CEO roles are combined, with clearly-delineated and comprehensive duties, makes it unnecessary and ill-advised to have an absolute requirement that the Chair be an independent director.

Our governance structure fosters board independence

The Board believes that the independence of its committees and other robust corporate governance practices ensure independent oversight of our key issues relating to strategy, risk and integrity.

For example:

- 8 out of 9 directors, or 89%, are independent.
- Each of the Audit, the Compensation and Leadership Talent and the Corporate Governance and Social Responsibility Committees is required to be composed solely of independent directors. This means that the oversight of key matters, such as the integrity of financial statements, CEO performance, executive compensation, the nomination of directors and evaluation of the Board and its committees, is entrusted exclusively to independent directors.
- The Board and its committees meet regularly in executive session without management, have complete access to management and have the authority to retain independent advisors, as they deem appropriate.

- All independent directors play a role in overseeing the CEO's performance, with the Board routinely discussing this subject in executive session without the CEO present.
- The Board continually reviews its policies and committee charters to ensure that they are appropriate and reflect high standards.

Prior Submissions on this topic

A stockholder proposal regarding our independent board chair, substantially identical to this proposal, was presented to our stockholders, at the 2016, 2018, 2019 and 2022 annual meetings and only received the support of 19%, 19%, 21% and 19% of our stockholders, respectively, demonstrating clear approval of our corporate governance framework and Board leadership structure.

Vote Required

The affirmative vote of the majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is required to approve this proposal.
